

PROSPECTUS
of iX Global Emerging Markets Equities SPC Limited Exchange Traded Notes due December 05, 2029
dated 24 September 2021

*This Prospectus is amended and restated Prospectus, initially dated December 05, 2019,
for the purposes of AIFC Market Rules*

General

- The iX Global Emerging Markets Equities Exchange Traded Notes (the “**ETNs**” or the “**Notes**”) are senior unsecured debt obligations of iX Global Emerging Markets Equities SPC Limited (the “**SPC**”), a special purpose company incorporated in the AIFC whose sole assets are shares in the iShares Core MSCI EM IMI UCITS ETF (LSE ticker symbol: “EIMI”) (the “**Shares**”) (the “**Underlying ETF**”) and Cash. The base currency of the Underlying ETF is US Dollars (US\$).
- The investment objective of the Underlying ETF is to provide investors with a total return, taking into account both capital and income returns, which reflects the return of the MSCI Emerging Markets Investable Market Index (the “**IMI**”). In order to achieve this investment objective, the investment policy of the Underlying ETF is to invest in a portfolio of equity securities that, so far as possible and practicable, consist of the component securities of the IMI, being the Underlying ETF’s benchmark index.
- The IMI measures the performance of large, mid and small capitalisation stocks across emerging markets countries which comply with certain size, liquidity and free-float criteria. The IMI and the Underlying ETF is described in more detail on pages 28 to 30 of this Prospectus (this “**Prospectus**”).
- The ETNs seek to provide investors a return linked to the performance of the Underlying ETF, reduced by the Expenses. If the price of Shares at the date of your sale of ETNs is greater than the price of Shares at the date of your purchase of ETNs, you will receive less due to accrued Expenses. The amount of accrued Expenses will reduce the amount, if any, you will receive at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be), which could result in a loss to you on your investment, even if the price of Shares at the date of your sale is greater than the price of Shares at the date of your purchase. **Any payment on the ETNs is subject to the SPC’s ability to pay its obligations as they become due.**
- The ETNs are issued by the SPC, a special purpose company incorporated in the AIFC and governed by the AIFC Special Purpose Company Rules (AIFC Rules No. GR0001 of 2017). The SPC is a wholly-owned subsidiary of AIX FM Ltd (“**AIX FM**”). AIX FM is itself a wholly-owned subsidiary of the Astana International Exchange Limited (“**AIX**”).
- **An investment in the ETNs involves significant risks and is not appropriate for every investor. The ETNs should be purchased only by knowledgeable investors who understand the potential consequences of investing in the ETNs. Investors should consider their investment horizon as well as potential transaction costs when evaluating an investment in the ETNs and should regularly monitor their holdings of ETNs to ensure that they remain consistent with their investment strategies.**
- The ETNs are senior unsecured debt obligations of the SPC and mature on December 05, 2029.
- The ETNs do not guarantee any return on your investment and will not pay any coupon. **Accordingly, ETN holders will not receive regular or any interest payments.** Prior to maturity of the Notes, unless the ETNs are either redeemed or terminated in accordance with their terms, ETN holders will only be able to realise the value of their investment by selling the ETNs through a broker that is a trading member of AIX, the stock exchange within the AIFC. On maturity of the ETNs, ETN holders will receive Cash and/or Shares and the amount of such Cash and/or number of Shares will be reduced by the Expenses.
- The base currency of the ETNs is US Dollars (US\$) and the nominal value of the ETNs shall be expressed in US Dollars (US\$). The initial nominal value of one ETN calculated as at the date of the first issuance is equal to 28,32 US Dollars (US\$). This nominal value is not a principal amount and, accordingly, does not provide the ETN holder with a right to claim this amount from the SPC. The value and price of the ETNs will be subject to change on a daily basis, as described in more detail on pages 15 to 20 of this Prospectus.
- The ETNs are listed on AIX under the ticker symbol “**IXE**”. The SPC has no obligation to maintain any listing on any exchange or quotation system and no assurance can be given that the listing on AIX will be maintained.

- 6 745 ETNs have been issued by the SPC in the amount of the Initial Placement and are sold off-exchange to the Initial Purchaser where the consideration provided by the Initial Purchaser consists of 6 745 Shares and cash in the amount of 1 000,00 US Dollars (US\$). This amount represents the amount of the Initial Placement. The Issuer may issue additional ETNs or redeem existing ETNs, as further described in this Prospectus. As at the date of this Prospectus, the issued number of ETNs was 8 885 ETNs.
- Further issuances of the ETNs are carried out by the SPC only upon the request of the Authorised Participants. Such additional issuances of the ETNs will be sold by the SPC to the Authorised Participants off-exchange at the price intended to be approximately close to the NAV. The Authorised Participants may sell ETNs on AIX and/or off-exchange. Prospective investors may purchase or sell ETNs on AIX through a brokerage firm that is a trading member of AIX or off-exchange. The Initial Purchaser and the Authorised Participants have a right to redeem ETNs purchased from the Issuer, on AIX or off-exchange. The redemption of the ETNs will be made off-exchange. **ETN holders (other than Authorised Participant(s) and Initial Purchaser(s)) shall have no right to require the SPC to redeem ETNs.** The SPC and its certain affiliates may engage in purchase and resale transactions in the ETNs, although they are not required to do so and may stop at any time. For a detailed description of these procedures, please refer to the Section headed “General terms of the Notes” on pages 15 to 20 of this Prospectus.

Investing in the ETNs involves a number of risks not associated with an investment in conventional debt securities. See the Section headed “Risk Factors” starting on page 21 of this Prospectus for more information.

What are the key risks that are specific to the Issuer?

The ETNs are subject to the credit risk of the SPC

The ETNs are senior unsecured debt obligations of the SPC and are not, either directly or indirectly, an obligation of any third party. Any payment to be made in respect of the ETNs, including any payment at maturity, upon Redemption or upon the exercise by the SPC of its Early Termination Right (as the case may be), depends on ability of the SPC to satisfy its obligations as they become due. As a result, any adverse changes in the market's view of creditworthiness of the SPC will affect the market value, if any, of the ETNs prior to maturity, upon Redemption or upon the exercise by the SPC of its Early Termination Right (as the case may be). In addition, in the event the SPC was to default on its obligations, you may not receive any amounts owed to you under the terms of the ETNs.

There is no guarantee attached to the Notes.

What are the key risks that are specific to the Notes?

The ETNs may not be a suitable investment for you if:

- You do not seek an investment with a return linked to the performance of the Underlying ETF which is intended to provide exposure to a diversified basket of publicly traded securities.
- You believe that the price of Shares will decline during the term of the ETNs or the price of the Underlying ETF will not increase by an amount sufficient to offset accrued Expenses.
- You do not understand that the trading price of the ETNs at any time may vary significantly from the NAV and that paying a premium purchase price over the NAV could lead to significant losses in the event you sell the ETNs at a time when such premium is no longer present in the market place or (as the case may be) the SPC exercises its Early Termination Right.
- You are not willing to accept the risk that you may lose some or all of your investment.
- You are not willing to actively and frequently monitor your investment in the ETNs.
- You do not have sufficient knowledge and experience to evaluate how the ETNs may perform under different conditions or the merits and risks of an investment in the ETNs.
- You do not understand the terms of the investment in the ETNs or are not familiar with the behavior of the Underlying ETF or financial markets generally.
- You are not willing to hold securities that may be redeemed early by the SPC pursuant to the exercise of its Early Termination Right.
- You are not willing to accept the risk that the price at which you are able to sell the ETNs may be significantly less than the amount you invested.
- You do not have sufficient financial resources and liquidity to bear the risks of an investment in the ETNs, including the risk of loss of such investment.
- You seek an investment for which there will be an active secondary market.
- You are not comfortable with creditworthiness of the SPC as issuer of the ETNs.

Investors considering purchasing the ETNs should reach an investment decision only after carefully considering the suitability of the ETNs in light of their particular circumstances.

You may lose some or all your investment

The ETNs are fully exposed to any decline in the Underlying ETF. If the price of Shares on the date of your sale is less than the price of Shares at the date of your purchase, you will lose some or all of your investment at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be).

The amount of accrued Expenses will reduce the amount of Shares and/or Cash, if any, you will receive at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be)

Even if the price of Shares at the date of your sale is greater than the price of Shares at the date of your purchase, you will receive less due to accrued Expenses. The amount of accrued Expenses will reduce the amount of Shares and/or Cash, if any, you will receive at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be), which could result in a loss to you on your investment, even if the price of Shares at the date of your sale is greater than the price of Shares at the date of your purchase.

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase because the NAV is calculated based on the price of Shares on each Business Day less accrued but unpaid Expenses.

Tax implications if ETNs are excluded from the official list of the Stock Exchange

If ETNs are excluded from the official list of AIX, all income on ETNs will be subject to taxation in Kazakhstan. Although the SPC will use its best efforts to maintain the ETNs on the official list of AIX, in circumstances where this is not possible, the exclusion of the ETNs from the official list of AIX may negatively affect the tax position of holders of ETNs resident in Kazakhstan for tax purposes, as well as their market price.

Tax on capital gains on Shares owned by the SPC may reduce the NAV

The SPC may sell the Shares it owns to cover its Expenses. In circumstances where the difference between the price of sale and the initial price of the ETNs is positive, such positive amount will be included in the aggregate annual income of the SPC according to applicable Kazakhstan tax legislation. It is not guaranteed that, at the end of the calendar year, the deductible expenses of the SPC will be higher than the aggregate annual income and there will be no corporate income tax payable. Accordingly, the SPC may be obliged to pay taxes that will decrease the NAV.

The SPC may redeem the ETNs prior to the Maturity Date by exercising its Early Termination Right

On any Business Day, the SPC may elect to redeem all, but not less than all, of the outstanding ETNs with no less than 30 Business Days' prior notice by exercising its Early Termination Right. If the SPC elects to redeem your ETNs pursuant to the exercise by the SPC of its Early Termination Right, you may not be able to reinvest at comparable terms or returns.

Risk of changing interest rates

The value of the Underlying ETF may decline when interest rates fall or rise. This decline can occur because the Underlying ETF may subsequently invest in interest-sensitive assets.

You have no rights or interests in any Shares

Investing in the ETNs will not make you a holder of any rights or interest in the Underlying ETF (including the Shares). Neither you nor any other holder or owner of the ETNs will have any voting rights, any right to receive dividends or other distributions or any other rights with respect to the Underlying ETF (including the Shares). Accordingly, the return on your ETNs may not reflect the return you would realise if you actually owned the Shares.

The market value of the ETNs may be influenced by many unpredictable factors

The market value of your ETNs may fluctuate greatly during the term of the ETNs. Generally, the value of the Underlying ETF will affect the market value of the ETNs more than any other factor. Other factors that may influence the market value of the ETNs include:

- the volatility of the Underlying ETF (i.e., the frequency and magnitude of changes in the value of the Underlying ETF);
- the market price of the Shares; volatility, earnings, financial conditions, corporate, industry and regulatory developments, and other events affecting the companies whose common shares and preferred stock are included in the Underlying ETF;
- the prevailing prices and yields for the Shares;

- the time remaining to the maturity of the ETNs;
- supply and demand for the ETNs, including to the extent such supply and demand may be affected by inventory positions held by the SPC or any market maker;
- economic, financial, political, regulatory, geographical, agricultural, judicial or other events that affect the value of the Underlying ETF, or that affect markets generally; and
- the actual and perceived creditworthiness of the SPC.

These factors interrelate in complex ways, and the effect of one factor on the market value of your ETNs may offset or (as the case may be) amplify the effect of other factors.

The liquidity of the market for the ETNs may vary materially over time and may be limited

As stated in this Prospectus, the SPC sold the initial amount of the ETNs to the Initial Purchaser. Additional ETNs are offered and sold from time to time by the SPC to Authorised Participants. In addition, the number of ETNs outstanding or held by persons other than affiliates of the SPC could be reduced at any time due to redemptions of the ETNs. The SPC may suspend or cease sales of the ETNs at any time, at its sole and absolute discretion. Accordingly, the liquidity of the market for the ETNs could vary materially over the term of the ETNs. Only the Authorised Participants or (as the case may be) the Initial Purchaser may request redemption of the ETNs prior to their maturity, and the Redemption is subject to the conditions and procedures described elsewhere in this Prospectus.

Changes that affect the calculation of the NAV will affect the market value of the ETNs and the Settlement Amount

The amount payable on the ETNs and their market value could be affected if trading in the Shares is suspended or cancelled, in which case it may become difficult to determine the market value of the ETNs. If events such as these occur, or if the value of the Underlying ETF is not available because of a market disruption event or for any other reason, the SPC will make a good faith estimate at its sole and absolute discretion in its calculation of the NAV.

Historical values of the Underlying ETF should not be taken as an indication of future performance during the term of the ETNs

The actual performance of the Underlying ETF over the term of the ETNs, as well as the amount payable at maturity, upon early Redemption or upon the exercise by the SPC of its Early Termination Right, may bear little relation to the historical performance of the Underlying ETF. As a result, it is impossible to predict whether the price of ETNs will rise or fall.

There may not be an active trading market in the ETNs; sales in the secondary market may result in significant losses

The ETNs are listed on AIX. However, the SPC is not required to maintain any listing of the ETNs on AIX or any other stock or quoted exchange. The SPC and its certain affiliates may engage in purchase and resale transactions in the ETNs, although they are not required to do so and may stop at any time. If an active secondary market exists, the SPC expects that ETN holders will purchase and sell the ETNs primarily in this secondary market. Even if an active secondary market for the ETNs exists, it may not provide significant liquidity or trade at prices advantageous to you. As a result, if you sell your ETNs in the secondary market, you may have to do so at a discount from your initial purchase price and you may suffer significant losses.

KEY INFORMATION ON THE ADMISSION TO TRADING

Under which conditions and timetable can I invest in the Notes?

ETNs are listed and admitted to trading on AIX on December 5th, 2019.

Why is this Prospectus being produced?

This Prospectus has been produced for the ETNs to be admitted to trading on AIX. The foregoing parties may effect transactions where those conflicts arise and shall not, subject to the terms of contracts be liable to account for any profit, commission or other remuneration arising. However, all transactions carried out by or on behalf of SPC will be on arm's length terms.

In the event that any conflicts of interest arises, each company will, at all times, have regard in such event to its obligations under contracts and, in particular, to its obligations to act in the best interests of the SPC and the ETN holder (s) so far as practicable. Companies will endeavor to ensure that such conflicts are resolved fairly and taking into account interests of the investors.

GENERAL TERMS OF THE NOTES

The following are general terms of the ETNs and other considerations you should take into account when deciding whether to invest in the ETNs.

What are the ETNs and how do they work?

The ETNs are unsecured senior debt obligations of iX Global Emerging Markets Equities SPC Limited, a special purpose company governed by the AIFC Special Purpose Company Rules (AIFC Rules No. GR0001 of 2017) and incorporated in the AIFC (the “**SPC**”). The assets of the SPC are a combination of shares in the Underlying ETF (the “**Shares**”) and cash in US Dollars and Kazakhstan tenge in hand of the SPC and, to the extent only that they are immediately available for withdrawal or otherwise immediately available to the SPC, all deposits of the SPC with any bank/brokerage company/custodian (the “**Cash**”). The Cash will be held in a bank account of the Management Company with a bank located in the Republic of Kazakhstan and licensed by the National Bank of the Republic of Kazakhstan. This arrangement for holding Cash may be changed by the SPC or the Management Company in their discretion.

Over the term of the ETNs, the NAV will generally fluctuate in line with the change in value of the Underlying ETF, reduced by the Expenses (as explained in more detail immediately below).

Net Asset Value

The NAV equals:

the closing price of a Share as quoted on the Primary Exchange on the preceding Business day
multiplied by
the number of Shares held by the SPC
plus
Cash
plus any other assets
less
accrued but unpaid Expenses
less any other liabilities (excluding ETNs issued).

The NAV per ETN calculated by dividing the NAV by number of outstanding ETNs.

The Management Company has a right, acting reasonably and prudently, to adjust the calculation of the NAV by excluding or (as the case may be) including certain items in order to determine the correct value of the assets of the SPC.

The NAV is calculated on each Business Day and published on the website of the Stock Exchange at www.aix.kz no later than 11:00 a.m. Nur-Sultan (formerly Astana) time on that Business Day.

The NAV is rounded down to the nearest cent.

No interim NAV will be calculated and/or published by any person (including, without limitation, the SPC, AIX FM or AIX).

As a result of On-Going Placement(s) and Redemption(s), and the buying and selling of ETNs on AIX, it is expected (but not guaranteed) that the price of the ETNs traded on AIX will over time closely track the NAV.

Expenses

The SPC shall pay the following expenses:

- operational fees;
- the management fee; and
- other expenses.

The above expenses of the SPC are deducted from, and reflected in the value of the SPC and, accordingly, the NAV. The effect of the SPC paying Expenses is therefore to reduce the NAV.

Total Expense Ratio

The Total Expense Ratio is the ratio of the Expenses, including operational fees and the management fee and the fees charged by the manager of the Underlying ETF, accrued on a daily basis, to the NAV. It is expected (but not guaranteed) that the Total Expense Ratio will not exceed 0.5 percent per annum.

Right of the Management Company to pay Expenses

If at any time the Total Expense Ratio exceeds 0.5 percent per annum, the Management Company has a right, but is not obliged, to reimburse the SPC for such shortfall.

The Management Company may, but is not obliged to, pay any operational fees at its own expense, with or without reimbursement from the SPC.

The management fee and operational fees are described in more detail on this page of this Prospectus.

Operational fees

Operational fees include all costs, charges, fees and expenses incurred in the operation of the SPC, including transactional costs, banking costs, brokerage costs, borrowing costs, the costs and expenses of obtaining and maintaining authorisations or registrations with regulatory authorities, professional fees, expenses for auditing, interest payments and other fees.

Management fee

In accordance with the Management Agreement, the SPC shall pay a fee to the Management Company for the Management Company's services. Pursuant to and in accordance with the terms and conditions of the Management Agreement, the Management Company may modify the management fee, provided that the Total Expense Ratio may not exceed 0.5 percent per annum.

Calculation and payment of the management fee

The management fee will be accrued on a daily basis and paid monthly by the SPC.

In the event the SPC has insufficient cash to pay the management fee or other Expenses, the SPC may sell Shares in order to cover such Expenses.

Other Expenses

In addition to the Expenses indicated above, the SPC may, in exceptional circumstances, deduct costs that relate to the ETNs that arise outside the ordinary course of business such as taxes, litigation expenses and any other extraordinary expenses. These other expenses are for the account of ETN holders and, accordingly, will be reflected in the NAV.

Permitted Assets

The SPC shall be entitled to hold the following assets only:

- Shares; and
- Cash.

Cash will be held in US Dollars and/or Kazakhstan tenge in a bank account of the Management Company with a bank located in the Republic of Kazakhstan and licensed by the National Bank of the Republic of Kazakhstan. This arrangement for holding Cash may be changed by the SPC or the Management Company in their discretion. Cash may include cash in hand of the SPC and, to the extent only that they are immediately available for withdrawal or otherwise immediately available to the SPC, all deposits of the SPC with any bank/brokerage company/custodian.

All assets of the SPC in the form of Shares will be held by the Custodian under the terms of the Custody Agreement.

Target asset allocation

The SPC's target asset allocation and asset allocation ranges are set out in the table below:

Asset Class	Intended Target	Range
Shares	99%	95% - 100%
Cash	1%	0% - 5%

Maturity Date and Settlement Amount

On the Maturity Date the SPC will pay the Settlement Amount to ETN holders in accordance with instructions received from ETN holders, based on the size of their holding:

- for ETN holders holding at least the Redemption Amount, the Settlement Amount will be Shares and Cash less accrued but unpaid Expenses in proportion to the NAV as at the Business Day preceding the Maturity Date. Any fraction of Shares due will be paid in cash at the closing price of the Shares as quoted on the Primary Exchange on the preceding Business Day; and
- for ETN holders holding less than the Redemption Amount, the Settlement Amount will be a cash amount equal to the NAV as at the Business Day preceding the Maturity Date less accrued but unpaid Expenses.

Accrued but unpaid Expenses will be deducted from the amount of Cash due to the ETN holder. If the amount of Cash due to the ETN holder (taking into account any cash component in respect of any fractions of Shares) is less than the amount of accrued but unpaid Expenses, then the SPC will decrease the number of Shares that are due to such ETN holder and increase the Cash due to such ETN holder, from which the accrued but unpaid Expenses will then be paid in full.

The Settlement Amount will be transferred to ETN holders appearing on the register of ETN holders provided by AIX Registrar as at the Maturity Date.

On the Maturity Date, the SPC will request that AIX Registrar cancels all outstanding ETNs.

Each ETN holder will be required to provide its banking and securities account details not later than 30 Business Days before the Maturity Date. Such instructions shall be submitted:

- for those ETN holders that hold their ETNs in their securities accounts with brokerage companies who are participants in AIX CSD, via such brokerage companies; or
- for those ETN holders that hold their ETNs in their securities accounts with AIX Registrar, via AIX Registrar.

In the event no details of either a securities account or bank account are provided to the SPC within the required time period or such instructions are missing or include inaccurate information or (as the case may be) such instructions lack the required information, the Shares and Cash will be retained by the SPC in escrow. Such unclaimed Shares will be sold after 30 Business Days following the Maturity Date and the monies received from such sale will be held to the order of the relevant ETN holder together with such other retained Cash, in each case to the extent permissible under applicable law and until such time as such ETN holder claims such monies and retained Cash.

Early Termination Right

With at least 30 Business Days' notice, on any Business Day through and including the Maturity Date, the SPC, at its sole and absolute discretion, may redeem all, but not less than all, of the issued and outstanding ETNs. Such redemption will be effected by the SPC by declaration of a new Maturity Date and respective actions to be undertaken in accordance with procedures described for the Maturity Date.

Any such notification by the SPC of the Early Termination Right is irrevocable.

Upon execution of the Early Termination Right, each ETN holder will receive the Settlement Amount, which will be calculated as described on this page above of this Prospectus. If the amount so calculated is less than zero, the Settlement Amount will be zero.

Redemption

An Authorised Participant or (as the case may be) the Initial Purchaser may submit, via a broker who is a trading member of AIX, an irrevocable request (in the case of the Authorised Participant) in accordance with and pursuant to the Authorised Participant Agreement or (in the case of the Initial Purchaser) the Subscription Agreement (each a "**Redemption Notice**") requiring the SPC to redeem the ETNs provided that any such Redemption Notice is in an amount not less than the Redemption Amount. Such Redemption Notice shall be submitted to the SPC not later than Wednesday (being a Business Day) (or such other Business Day as determined solely by the SPC in its absolute discretion) of the week preceding the Redemption Date.

Once the Redemption Notice has been confirmed, such Authorised Participant or (as the case may be) Initial Purchaser shall:

- transfer ETNs to the SPC (in the amount specified in the Redemption Notice) and ensure that the SPC receives such ETNs not later than Friday (being a Business Day) (or such other Business Day as determined solely by the SPC) of the week preceding the week of the Redemption Date; and
- make a cash payment in an amount equal to the Redemption Fee and ensure that the SPC receives the

Redemption Fee not later than Friday (being a Business Day) (or such other Business Day as determined solely by the SPC) of the week preceding the week of the Redemption Date.

Each Redemption Notice shall contain bank and securities accounts details.

On the Redemption Date, the SPC will pay to the Authorised Participant or (as the case may be) Initial Purchaser via the transfer of Shares and Cash less accrued but unpaid Expenses the NAV pro rata to the total number of ETNs outstanding. Any fraction of Shares will be paid in Cash at the closing price of the Shares as quoted on the Primary Exchange on the preceding Business Day.

Accrued but unpaid Expenses will be deducted from the amount of Cash due to the Authorised Participant or (as the case may be) the Initial Purchaser (acting on their own account or for the account of the ETN holder). If the amount of Cash due to the Authorised Participant or (as the case may be) the Initial Purchaser (acting on their own account or for the account of the ETN holder) (taking into account any cash component in respect of any fractions of Shares) is less than the amount of accrued but unpaid Expenses, then the SPC will decrease the number of Shares that are due to the Authorised Participant or (as the case may be) the Initial Purchaser (acting on their own account or for the account of the ETN holder) and increase the Cash due to the Authorised Participant or (as the case may be) the Initial Purchaser (acting on their own account or for the account of the ETN holder), from which the accrued but unpaid Expenses will then be paid in full.

No Redemption Notice will be accepted during the period of 30 calendar days prior to the Maturity Date.

ETN holders (other than Authorised Participant(s) and Initial Purchaser(s)) shall have no right to require the SPC to redeem ETNs.

Borrowing

The SPC does not intend to borrow money. However, the SPC may borrow money for working capital purposes only. It is anticipated that, under normal market conditions, any borrowing by the SPC in aggregate will not exceed 3 (three) percent of the NAV.

Substitution of the current Underlying ETF for a new Underlying ETF

The SPC may change the Underlying ETF at its sole and absolute discretion. The circumstances under which the SPC may change the Underlying ETF include, but are not limited to:

- suspension of trading or delisting of the Shares on the official list of the Primary Exchange; and
- other conditions that may make it practically impossible to sell, purchase or obtain reasonable market prices for the Shares.

Should such conditions occur, the SPC, acting in good faith, must, decide whether to:

- substitute the current Underlying ETF with a new Underlying ETF, which new Underlying ETF shall, in all material respects, be substantially similar to the previous Underlying ETF; or
- exercise its Early Termination Right to redeem all of the outstanding ETNs.

In circumstances where the previous Underlying ETF is substituted for a new Underlying ETF, the SPC shall:

- inform the holders of ETNs by means of a notification on the website of the Stock Exchange at www.aix.kz;
- request the suspension of trading of the ETNs on the Stock Exchange;
- suspend the issuance and Redemptions of the ETNs;
- sell, on a best efforts basis, Shares in the previous Underlying ETF;
- purchase, on a best efforts basis, shares in the new Underlying ETF;
- calculate and publish the new NAV; and
- seek a lifting of the trading suspension on the Stock Exchange in respect of the ETNs.

Safekeeping of the SPC's assets by the Custodian

In accordance with the terms of the Custody Agreement, AO Raiffeisenbank agreed to act as custodian for the Shares.

The Custodian is liable for the safekeeping of the Shares owned by the SPC and held in the SPC's securities account with the Custodian.

The SPC has the right at its sole and absolute discretion to appoint another custodian to replace the Custodian and to transfer all the Shares to such custodian.

Extension of the ETNs' term

The SPC may at its sole and absolute discretion and at any time extend the maturity of the ETNs with prior written notification to ETN holders by means of a notification on the website of the Stock Exchange at www.aix.kz.

Other than the extension of the Maturity Date, all the other terms of the ETNs will remain the same.

Placement of ETNs

The SPC will issue and place ETNs via both the Initial Placement and On-Going Placements.

Initial Placement and Material Details of the Subscription Agreement

The Initial Placement of ETNs carried out via direct subscription from the Initial Purchaser pursuant to and in accordance with the terms and conditions of the Subscription Agreement.

Under the Subscription Agreement the Initial Purchaser purchased ETNs in exchange for Shares and Cash.

Amount of the Initial Placement – 6 745 ETNs.

On-Going Placements

All On-Going Placements shall be carried out via transactions with Authorised Participants in exchange for Shares and Cash in an amount not less than the Creation Amount in proportion to the NAV as at the date immediately preceding the date of the Placement Notice. The SPC has a right to require an Authorised Participant to pay for the Creation Amount in Cash only.

The SPC has absolute discretion to accept or reject in whole or in part any Placement Notice for ETNs. In addition, the SPC may impose such restrictions as it believes at its sole and absolute discretion are necessary to ensure compliance with applicable legislation and anti-money laundering procedures.

The SPC has a right to modify the Creation Amount at its sole and absolute discretion at any time with prior written notification to the Authorised Participants published on the website of the Stock Exchange at www.aix.kz.

The SPC will issue and the Authorised Participant will receive ETNs on the Placement Date, provided that:

- the Authorised Participant provided an irrevocable placement notice (a “**Placement Notice**”) no later than Wednesday (being a Business Day) (or such other Business Day as determined solely by the SPC) on the week preceding the week of the Placement Date;
- the SPC received Shares and Cash (if any) in the quantities specified in the Placement Notice no later than Monday (being a Business Day) (or such other Business Day as determined solely by the SPC) on the week of the Placement Date;
- any fraction of Shares that are due by the Authorised Participant shall be paid in Cash at the closing price of the Shares as quoted on the Primary Exchange of the Underlying ETF on the Business Day preceding the date of the Placement Notice; and
- the SPC has signed an Authorised Participant Agreement with the Authorised Participant.

Cash due from the Authorised Participant shall be decreased by the amount of accrued but unpaid Expenses; in case if amount of Cash due from the Authorised Participant (taking into account cash component for any fractions of Shares) is less than amount of accrued but not paid Expenses, proportionate to the number of ETNs placed, then the Authorised Participant shall deliver fewer Shares in order to net the accrued but not paid Expenses.

On the Placement Date the SPC will issue ETNs to the Authorised Participant as per the instructions provided in the Placement Notice.

ETNs purchased by the Authorised Participants as part of the On-Going Placement(s) may be sold by the Authorised Participant on AIX or off-exchange to any investors.

The SPC may attract other market participants as Authorised Participants if such other market participants indicate their willingness to so participate.

The material terms of the Authorised Participant Agreement with Astana International Exchange Market Liquidity Services Limited includes the procedures regarding On-Going Placement and Redemption described on pages 15 to 20 of this Prospectus. The material terms of the Authorised Participant Agreement with other new Authorised Participants in future are expected to be based on the procedures regarding On-Going Placement and Redemption described on pages 15 to 20 of this Prospectus.

Market Making

The Authorised Participant may also act as market maker on the Stock Exchange (subject to compliance with certain conditions). Such activity will be performed in accordance with a market maker agreement signed between the Authorised Participant and the Stock Exchange.

A market maker is expected to perform market making activities providing bid and ask quotes in relation to the ETNs on AIX with the principal purpose, among others, of providing liquidity in respect of the ETNs on AIX.

Dividends and distributions received from the Shares

Any net cash dividends or other distributions associated with the Underlying ETF and paid to the SPC shall be retained by the SPC and may be used to cover the Expenses of the SPC. The ETN holders have no right or entitlement to any such dividends or other distributions.

The SPC has the right to use any cash owned by it for the purchase of Shares.

Changes to this Prospectus

The SPC may amend or change this Prospectus at any time in its sole and absolute discretion by the issuance of a supplementary prospectus.

RISK FACTORS

Your investment in the ETNs will involve risks. The ETNs are not secured debt and are riskier than ordinary unsecured debt securities. As described in more detail below, the trading price of the ETNs may vary considerably before the Maturity Date due to, among other things, fluctuations in the markets on which the Underlying ETF is traded and other events that are difficult to predict and beyond control of the SPC. Investing in the ETNs is not equivalent to investing directly in the Underlying ETF. This Section of this Prospectus describes the most significant risks relating to an investment in the ETNs.

The SPC urges you to read the following information about these risks, together with the other information in this Prospectus, before investing in the ETNs.

RISK FACTORS RELATED TO THE ETNs

The ETNs may not be a suitable investment for you

The ETNs may not be a suitable investment option for you if:

- You do not seek an investment with a return linked to the performance of the Underlying ETF which is intended to provide exposure to a diversified basket of publicly traded securities.
- You believe that the price of Shares will decline during the term of the ETNs or the price of the Underlying ETF will not increase by an amount sufficient to offset accrued Expenses.
- You do not understand that the trading price of the ETNs at any time may vary significantly from the NAV and that paying a premium purchase price over the NAV could lead to significant losses in the event you sell the ETNs at a time when such premium is no longer present in the market place or (as the case may be) the SPC exercises its Early Termination Right.
- You are not willing to accept the risk that you may lose some or all of your investment.
- You are not willing to actively and frequently monitor your investment in the ETNs.
- You do not have sufficient knowledge and experience to evaluate how the ETNs may perform under different conditions or the merits and risks of an investment in the ETNs.
- You do not understand the terms of the investment in the ETNs or are not familiar with the behavior of the Underlying ETF or financial markets generally.
- You are not willing to hold securities that may be redeemed early by the SPC pursuant to the exercise of its Early Termination Right.
- You are not willing to accept the risk that the price at which you are able to sell the ETNs may be significantly less than the amount you invested.
- You do not have sufficient financial resources and liquidity to bear the risks of an investment in the ETNs, including the risk of loss of such investment.
- You seek an investment for which there will be an active secondary market.
- You are not comfortable with creditworthiness of the SPC as issuer of the ETNs.

Investors considering purchasing the ETNs should reach an investment decision only after carefully considering the suitability of the ETNs in light of their particular circumstances.

You may lose some or all your investment

The ETNs are fully exposed to any decline in the Underlying ETF. If the price of Shares on the date of your sale is less than the price of Shares at the date of your purchase, you will lose some or all of your investment at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be).

The amount of accrued Expenses will reduce the amount of Shares and/or Cash, if any, you will receive at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be)

Even if the price of Shares at the date of your sale is greater than the price of Shares at the date of your purchase, you may receive less due to accrued Expenses. The amount of accrued Expenses will reduce the amount of Shares and/or Cash, if any, you will receive at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be), which could result in a loss to you on your investment, even if the price of Shares at the date of your sale is greater than the price of Shares at the date of your purchase.

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase because the NAV is calculated based on the price of Shares on each Business Day less accrued but unpaid Expenses.

Tax implications if ETNs are excluded from the official list of the Stock Exchange

If ETNs are excluded from the official list of AIX, all income on ETNs will be subject to taxation in Kazakhstan. Although the SPC will use its best efforts to maintain the ETNs on the official list of AIX, in circumstances where this is not possible, the exclusion of the ETNs from the official list of AIX may negatively affect the tax position of holders of ETNs resident in Kazakhstan for tax purposes, as well as their market price.

Tax on capital gains on Shares owned by the SPC may reduce the NAV

The SPC may sell the Shares it owns to cover its Expenses. In circumstances where the difference between the price of sale and the initial price of the Shares is positive, such positive amount will be included in the aggregate annual income of the SPC according to applicable Kazakhstan tax legislation. It is not guaranteed that, at the end of the calendar year, the deductible expenses of the SPC will be higher than the aggregate annual income and there will be no corporate income tax payable. Accordingly, the SPC may be obliged to pay taxes that will decrease the NAV.

The SPC may redeem the ETNs prior to the Maturity Date by exercising its Early Termination Right

On any Business Day, the SPC may elect to redeem all, but not less than all, of the outstanding ETNs with no less than 30 Business Days' prior notice by exercising its Early Termination Right. If the SPC elects to redeem your ETNs pursuant to the exercise of its Early Termination Right, you may not be able to reinvest at comparable terms or returns.

Risk of changing interest rates

The value of the Underlying ETF may decline when interest rates fall or rise. This decline can occur because the Underlying ETF may subsequently invest in interest-sensitive assets.

You have no rights or interests in any Shares

Investing in the ETNs will not make you a holder of any rights or interest in the Underlying ETF (including the Shares). Neither you nor any other holder or owner of the ETNs will have any voting rights, any right to receive dividends or other distributions or any other rights with respect to the Underlying ETF (including the Shares). Accordingly, the return on your ETNs may not reflect the return you would realise if you actually owned the Shares.

The market value of the ETNs may be influenced by many unpredictable factors

The market value of your ETNs may fluctuate greatly during the term of the ETNs. Generally, the value of the Underlying ETF will affect the market value of the ETNs more than any other factor. Other factors that may influence the market value of the ETNs include:

- the volatility of the Underlying ETF (i.e., the frequency and magnitude of changes in the value of the Underlying ETF);
- the market price of the Shares; volatility, earnings, financial conditions, corporate, industry and regulatory developments, and other events affecting the companies whose common shares and preferred stock are included in the Underlying ETF;
- the prevailing prices and yields for the Shares;
- the time remaining to the maturity of the ETNs;
- supply and demand for the ETNs, including to the extent such supply and demand may be affected by inventory positions held by the SPC or any market maker;
- economic, financial, political, regulatory, geographical, agricultural, judicial or other events that affect the value of the Underlying ETF, or that affect markets generally; and
- the actual and perceived creditworthiness of the SPC.

These factors interrelate in complex ways, and the effect of one factor on the market value of your ETNs may offset or (as the case may be) amplify the effect of other factors.

The liquidity of the market for the ETNs may vary materially over time and may be limited

As stated in this Prospectus, the SPC sold the initial amount of the ETNs to the Initial Purchaser. Additional ETNs are offered and sold from time to time by the SPC to Authorised Participants. In addition, the number of ETNs outstanding or held by persons other than affiliates of the SPC could be reduced at any time due to redemptions of the ETNs. The SPC may suspend or cease sales of the ETNs at any time, at its sole and absolute discretion. Accordingly, the liquidity of the market for the ETNs could vary materially over the term of the ETNs. Only the Authorised Participants or (as the case may be) the Initial Purchaser may request redemption of the ETNs prior to their maturity, and the Redemption is subject to the conditions and procedures described elsewhere in this Prospectus.

Changes that affect the calculation of the NAV will affect the market value of the ETNs and the Settlement Amount

The amount payable on the ETNs and their market value could be affected if trading in the Shares is suspended or cancelled, in which case it may become difficult to determine the market value of the ETNs. If events such as these occur, or if the value of the Underlying ETF is not available because of a market disruption event or for any other reason, the SPC will make a good faith estimate at its sole and absolute discretion in its calculation of the NAV.

Historical values of the Underlying ETF should not be taken as an indication of future performance during the term of the ETNs

The actual performance of the Underlying ETF over the term of the ETNs, as well as the amount payable at maturity, upon early Redemption or upon the exercise by the SPC of its Early Termination Right, may bear little relation to the historical performance of the Underlying ETF. As a result, it is impossible to predict whether the price of ETNs will rise or fall.

There may not be an active trading market in the ETNs; sales in the secondary market may result in significant losses

The ETNs are listed on AIX. However, the SPC is not required to maintain any listing of the ETNs on AIX or any other stock or quoted exchange. The SPC and its certain affiliates may engage in purchase and resale transactions in the ETNs, although they are not required to do so and may stop at any time. If an active secondary market exists, the SPC expects that investors will purchase and sell the ETNs primarily in this secondary market. Even if an active secondary market for the ETNs exists, it may not provide significant liquidity or trade at prices advantageous to you. As a result, if you sell your ETNs in the secondary market, you may have to do so at a discount from the issue price and you may suffer significant losses.

The SPC may sell additional ETNs, but the SPC is under no obligation to issue or sell additional ETNs at any time. If the SPC sells additional ETNs, the SPC may limit or restrict such sales, and the SPC may stop and subsequently resume selling additional ETNs at any time

In its sole discretion, the SPC may decide to issue and sell additional ETNs from time to time. Trades of the ETNs will be made at market prices prevailing at the time of sale, at prices related to market prices or at negotiated prices. Additionally, any ETNs held by the SPC or an affiliate in inventory may be resold at prevailing market prices or lent to market participants who may have made short sales of the ETNs. However, the SPC is under no obligation to issue or sell additional ETNs at any time, and if the SPC does sell additional ETNs, the SPC may limit or restrict such sales, and the SPC may stop and subsequently resume selling additional ETNs at any time. If the SPC starts selling additional ETNs, the SPC may stop selling additional ETNs for any reason, which could materially and adversely affect the trading price and liquidity of such ETNs in the secondary market. Furthermore, unless the SPC indicates otherwise, if the SPC suspends selling additional ETNs, the SPC reserves the right to resume selling additional ETNs at any time, which might result in the reduction or elimination of any premium in the trading price.

Suspension of additional issuances of ETNs can also result in a significant reduction in the number of outstanding ETNs if ETN holders subsequently exercise their right to have the ETNs redeemed by the SPC. If the total number of outstanding ETNs has fallen to a level that is close to or below the Redemption Amount, you may not be able to purchase enough ETNs to meet the minimum size requirement in order to exercise your right of Redemption. The unavailability of this right can result in the ETNs trading in the secondary market at discounted prices below the NAV. Having to sell your ETNs at a discounted sale price below the NAV could lead to significant losses. Prior to making an investment in the ETNs, you, together with your financial adviser, should consider whether the trading price is tracking the NAV.

The NAV and the Settlement Amount are not the same as the closing price or any other trading price of the ETNs in the secondary market

The NAV and Settlement Amount are not the same as the closing price or any other trading price, which is the price at which you may be able to sell your ETNs in the secondary market, if one exists. The NAV and Settlement Amount are in the form of Shares and/or Cash and calculated as described in this Prospectus.

The trading price of the ETNs at any time is the price at which you may be able to sell your ETNs in the secondary market at such time, if one exists. In the absence of an active secondary market for the ETNs, the last reported trading price may not reflect the actual price at which you may be able to sell your ETNs at a particular time. The trading price of the ETNs at any time may vary significantly from the NAV or Settlement Amount at such time due to, among other things, imbalances of supply and demand, lack of liquidity, transaction costs, credit considerations and bid-offer spreads. Paying a premium purchase price over the indicative value of the ETNs could lead to significant losses in the event you sell your ETNs at a time when such premium is no longer present in the market or the ETNs are called. The SPC may, without providing you notice or obtaining your consent, create and issue ETNs in addition to those offered under this Prospectus having the same terms and conditions as the ETNs. However, the SPC is under no obligation to sell additional ETNs at any time, and the SPC may suspend issuance of new ETNs at any time without providing you notice or obtaining your consent. If the SPC limits, restricts or stops sales of such additional ETNs, or if the SPC subsequently resumes sales of such additional ETNs, the trading price and liquidity of the ETNs in the secondary market could be materially and adversely affected, including an increase or decline in the premium purchase price of the ETNs.

The SPC or its affiliates may publish research, express opinions or provide recommendations that are inconsistent with investing in or holding the ETNs. Any such research, opinions or recommendations could affect the market value of the ETNs

The SPC and its affiliates may publish research from time to time on stocks or commodities and other matters that may influence the value of the ETNs, or express opinions or provide recommendations that are inconsistent with purchasing or holding the ETNs. Any research, opinions or recommendations expressed by the SPC or its affiliates may not be consistent with each other and may be modified from time to time without notice. The ETNs are linked to the Underlying ETF that is intended to measure the performance of a diversified basket of publicly traded securities. Investors should make their own independent investigation of the merits of investing in the ETNs and the Underlying ETF to which the ETNs are linked.

Business activities of the SPC or its affiliates may create conflicts of interest

As noted above, the SPC and its affiliates may engage in trading activities related to the Underlying ETF that are not for the account of holders of the ETNs or on their behalf. These trading activities may present a conflict between the holders' interest in the ETNs and the interests the SPC and its affiliates will have in their proprietary accounts, in facilitating transactions, including options and other derivatives transactions, for their customers and in accounts under their management. These trading activities, if they influence the value of the Underlying ETF, could have a material and adverse impact on the market value of the ETNs.

The Underlying ETF may be replaced upon the occurrence of certain adverse events

If certain adverse events were to occur (including but not limited to suspension of trading or delisting of the Shares from the official list of the Primary Exchange) which make it practically impossible to sell or purchase, or (as the case may be) to obtain reasonable market prices for the Shares, then the SPC must, acting in the good faith, decide whether to substitute the current Underlying ETF with a new Underlying ETF, which new Underlying ETF shall, in all material respects, be substantially similar to the previous Underlying ETF, or exercise its Early Termination Right to redeem all of the outstanding ETNs.

The ETNs are subject to the credit risk of the SPC

The ETNs are senior unsecured debt obligations of the SPC and are not, either directly or indirectly, an obligation of any third party. Any payment to be made on the ETNs, including any payment at maturity, upon Redemption or upon the exercise by the SPC of its Early Termination Right (as the case may be), depends on ability of the SPC to satisfy its obligations as they become due. As a result, any adverse changes in the market's view of creditworthiness of the SPC will affect the market value, if any, of the ETNs prior to maturity, upon Redemption or upon the exercise by the SPC of its Early Termination Right (as the case may be). In addition, in the event the SPC was to default on its obligations, you may not receive any amounts owed to you under the terms of the ETNs.

The SPC is a newly established entity without limited track record of operation

The SPC has been established on October 29, 2019 and has limited track record of operation. The SPC is a special purpose vehicle with a passive investment strategy and the asset classes in which it can invest are limited. Investments by the ETN holders will be used by the SPC to purchase Permitted Assets only. Accordingly, the prospects of the SPC are fully dependent on the market demand for its ETNs and the performance of the Underlying ETF.

Counterparty risk to the Custodian and other custodians

The assets of the SPC in the form of the Shares are entrusted to the Custodian for safekeeping, as set out in further detail on page 18 of this Prospectus. These assets should be segregated from other securities/assets of the Custodian in accordance with applicable law and regulation, which mitigates but does not exclude the risk of non-restitution in case of bankruptcy of the Custodian. ETN holders are therefore exposed to the risk of the Custodian not being able to fully meet its obligation to reconstitute all of the Shares in the case of bankruptcy of the Custodian. The Custodian may not keep all the assets of the SPC itself but may use a network of sub-custodians which are not always part of the same group of companies as the Custodian. ETN holders may be exposed to the risk of bankruptcy of the sub-custodians in circumstances in which the Custodian may have no liability.

Astana International Exchange Limited

The ETNs are listed and traded on AIX in the AIFC. AIX was launched in July 2018, and therefore, has a relatively short history of operations. Also, the infrastructure for trading on AIX and the infrastructure for settlement in AIX CSD and for registration in AIX Registrar is newly set up. No assurance can be given about acceptable trading volumes of the ETNs on AIX. These factors may negatively impact the liquidity and pricing of the ETNs on AIX.

Cap on Expenses

The SPC is obliged to pay its Expenses, including certain other expenses. Other expenses may include certain extraordinary or unpredictable expenses (such as litigation or tax expenses), that may result in an increase to the Total

Expense Ratio above 0.5 percent at any time. Notwithstanding that the SPC will attempt to limit its Expenses in order to keep the Total Expense Ratio below the 0.5 percent threshold, it is not guaranteed that the Total Expense Ratio will be less or equal to 0.5 percent.

RISK FACTORS RELATED TO THE UNDERLYING ETF

Below are the principal risks related to the Underlying ETF. Potential investors are urged to read the full description of risks associated with the Underlying ETF in the prospectus of the Underlying ETF available at www.ishares.com prior to the purchase of any ETNs.

Investment Risks

Past performance is not a guide to the future. The prices of Shares and the income from them may fall as well as rise and an investor may not recover the full amount invested. There can be no assurance that the Underlying ETF will achieve its investment objective or that an investor will recover the full amount invested in the Underlying ETF. The capital return and income of the Underlying ETF are based on the capital appreciation and income of the securities it holds, less expenses incurred and any relevant duties and charges. Therefore, Underlying ETF's return may be expected to fluctuate in response to changes in such capital appreciation or income.

Market Risk

Market risk is the risk that one or more markets in which the Underlying ETF invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. The value of a security or other asset may decline due to changes in general market conditions, economic trends or events that are not specifically related to the issuer of the security or other asset, or factors that affect a particular issuer or issuers, exchange, country, group of countries, region, market, industry, group of industries, sector or asset class. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the Underlying ETF and its investments.

Emerging markets risk

Emerging markets risk, which is the chance that the stocks of companies located in emerging markets will be substantially more volatile, and substantially less liquid, than the stocks of companies located in more developed foreign markets because, among other factors, emerging markets can have greater custodial and operational risks; less developed legal, tax, regulatory, and accounting systems; and greater political, social, and economic instability than developed markets.

Country/regional risk

Country/regional risk, which is the chance that world events (such as political upheaval, financial troubles, or natural disasters) will adversely affect the value of securities issued by companies in foreign countries or regions. Because the Underlying ETF may invest a large portion of its assets in securities of companies located in any one country or region, the Underlying ETF's performance may be hurt disproportionately by the poor performance of its investments in that area.

Other risk factors related to the Underlying ETF

Other risk factors related to the Underlying ETF are described in the Section entitled "Risk Factors" of the prospectus of the Underlying ETF issued in connection with the Shares and available at www.ishares.com.

USE OF PROCEEDS

The net proceeds of the issue of the Notes will be used by the Issuer for investments in the Permitted Assets only.

REGISTRATION, PURCHASE AND SALE OF ETNS

Registration of the Notes

The Notes are book-entered non-bearer securities in uncertificated form registered in AIX Registrar. The Notes may be held by the relevant holders in their accounts established either with AIX Registrar or with a participant of AIX CSD. Participants in AIX CSD include trading members of AIX (brokerage firms) and the custodians who have account(s) with AIX CSD.

Only persons that are registered as the owners of the Notes in the accounts with AIX Registrar or with a participant of AIX CSD will be recognised as the ETN holders. The owners of the Notes held in a holding (nominee) account with AIX CSD may choose to exercise all of their rights as noteholders against the Issuer through the respective participant of AIX CSD that has such holding (intermediary) account with AIX CSD (subject to such participant's agreement with the owners of the Notes to act in this capacity).

Over-the-counter Transactions with the Notes held with AIX Registrar

In order to transfer ETNs held in any account with AIX Registrar or receive ETNs into an account at AIX Registrar (either as a result of a sale and purchase transaction or other types of transaction) a person must:

- have an account with AIX Registrar; and
- submit to AIX Registrar an instruction to transfer ETNs into or from its account with AIX Registrar (together with the relevant documents).

Trading of the Notes on AIX and Their Settlement in AIX CSD

The ETNs are expected to be traded on AIX. The settlement of these on-exchange trades of the ETNs will be made in the depository system of AIX CSD in accordance with the business rules and procedures of AIX CSD.

AIX CSD holds securities for trading members of AIX, for other participants of AIX CSD and for their clients. Potential purchasers of the ETNs on AIX need to have an account opened with the participant of AIX CSD (which may be a trading member of AIX or a custodian with an account at AIX CSD). In such cases ETNs will be held on behalf of investors in the relevant AIX CSD participant's account at AIX CSD.

AIX CSD facilitates clearance and settlement of securities transactions conducted on AIX between trading members of AIX. The clearing and settlement process that takes place at AIX CSD provides for exchange of money and securities on a delivery-versus-payment basis through electronic book entry changes in accounts of AIX CSD's participants and their respective clients. Secondary market sales of the ETNs held through AIX CSD will be conducted in accordance with the business rules and the procedures of AIX CSD.

AIX Registrar, as a legal entity which holds and maintains a register of the records of legal owners of the ETNs, interacts with AIX CSD's depository system, and, as part of such interaction, AIX CSD will provide details of the ultimate beneficial owners of the ETNs to AIX Registrar to the extent such details are available in the depository system of AIX CSD.

UNDERLYING ETF

THE INFORMATION IN THIS SECTION HAS BEEN TAKEN “AS IS” FROM THE WEB-SITE (WWW.ISHARES.COM) MAINTAINED FOR THIS UNDERLYING ETF AND THE ISSUER SHALL NOT BE LIABLE FOR THE ACCURACY OR COMPLETENESS OF THE INFORMATION CONTAINED IN THIS SECTION. BECAUSE THE PERFORMANCE OF THE UNDERLYING ETF DIRECTLY AFFECTS THE VALUE AND PRICE OF THE ETNS POTENTIAL INVESTORS SHOULD REVIEW INFORMATION ABOUT THE UNDERLYING ETF AVAILABLE AT THE WEB-SITE WWW.ISHARES.COM PRIOR TO PURCHASING ANY ETNS.

Overview

The return on the ETNs is linked to the performance of the iShares Core MSCI EM IMI UCITS ETF (LSE: EIMI) (the “Underlying ETF”). The Underlying ETF seeks to track the performance of an index composed of large, mid and small cap companies from emerging markets countries.

Fees and Expenses Attributable to Underlying ETF

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

* Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

* Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund’s prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

Principal Investment Objective of Underlying ETF

The investment objective of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects the return of the MSCI Emerging Markets Investable Market Index (IMI).

Investment Policy of Underlying ETF

In order to achieve this investment objective, the investment policy of the Fund is to invest in a portfolio of equity securities that as far as possible and practicable consist of the component securities of the MSCI Emerging Markets Investable Market Index (IMI), the Fund's Benchmark Index. The Fund intends to use optimisation techniques in order to achieve a similar return to the Benchmark Index and it is therefore not expected that the Fund will hold each and every underlying constituent of the Benchmark Index at all times or hold them in the same proportion as their weightings in the Benchmark Index. The Fund may hold some securities which are not underlying constituents of the Benchmark Index where such securities provide similar performance (with matching risk profile) to certain securities that make up the Benchmark Index. However, from time to time the Fund may hold all constituents of the Benchmark Index.

As the Fund is approved by the CMA as a QFI under the QFI Rules, it can invest in Saudi listed shares on the Saudi Stock Exchange subject to the applicable foreign ownership limits under the QFI Rules and Saudi Capital Markets Law. As approved QFIs are not permitted under the current QFI Rules to also be the ultimate beneficial owners of Saudi-listed securities underlying FDI (e.g. swaps or participation notes) traded through the Saudi swap framework, to the extent the Fund invests in FDI, the Fund as a QFI will only be able to invest in FDI that have non-Saudi listed securities as the underlying security.

The Base Currency of iShares Core MSCI EM IMI UCITS ETF is US Dollar (US\$).

Benchmark index of Underlying ETF

The MSCI Emerging Markets Investable Market Index (IMI) measures the performance of large, mid and small capitalisation stocks across emerging markets countries which comply with MSCI's size, liquidity and free-float criteria. The Benchmark Index covers approximately 99% of the free-float adjusted market capitalisation in each country. The Fund may invest directly in securities listed or traded on the Regulated Markets of Russia in accordance with the weighting attributed to such securities in the Benchmark Index. As at 31 August 2020, 2.60% of the Benchmark Index comprised such securities. Investment in Russian listed or traded securities shall be limited to those securities which are listed or traded on the Moscow Exchange MICEX-RTS. The Benchmark Index rebalances on a quarterly basis. The Fund may trade China A Shares via Stock Connect. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <https://www.msci.com/constituents>.

The following is a general description of certain material tax considerations relating to the Notes under Kazakhstan tax legislation. This summary is based upon the Constitutional Law of the Republic of Kazakhstan “On the Astana International Financial Centre” No. 438-V ZRK, dated of 7 December 2015, the Kazakhstan Tax Code and income tax conventions (treaties) in effect at the date of this Prospectus. Legislative changes or interpretations may, however, be forthcoming that could alter or modify the statements and conclusions set out in this Prospectus. Any such changes or interpretations may be retroactive and could affect the tax consequences of ownership of the Notes by noteholders. This summary does not purport to be a legal opinion or contain a complete analysis of all tax considerations relating to the Notes. For the purpose of this Prospectus the Issuer has not reviewed any tax legislation of any country other than the tax legislation of the Kazakhstan.

Prospective investors in the Notes should consult their tax advisers as to which countries’ tax laws could be relevant to their acquiring, holding and disposing of the Notes and receiving any amounts in connection with the Notes and the consequences of such actions under the tax laws of those countries.

If an ETN holder intends to purchase and/or purchases the Shares as provided for in this Prospectus such ETN holder should consult with their tax advisers regarding any tax consequences of such receipt, holding and subsequent sale of the Shares under applicable tax legislation. Such ETN holder may also consider reviewing the section entitled “Taxation” of the prospectus issued in connection with the Shares (as may be supplemented from time to time) and which is available at <https://www.ishares.com>.

The information and analysis contained within this Section are limited to taxation issues under tax legislation of Kazakhstan, and prospective investors should not apply any information or analysis set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

In addition, prospective investors should note that an appointment by an investor in the Notes, or any person through which an investor holds Notes, of a custodian, collection agent or similar person in relation to such Notes in any jurisdiction may have tax implications. Republic of Kazakhstan Taxation

The following is a general summary of Kazakhstan tax consequences as at the date of this Prospectus in relation to the sale or transfer of the Notes. It is not exhaustive and purchasers are urged to consult their professional advisers as to the tax consequences to them of holding or transferring Notes.

Capital gains

Individuals and legal entities are exempt from individual and corporate income tax on capital gains mentioned above if the Notes are included as at the date of accrual in the official list of AIX.

THE DISCUSSION ABOVE IS A GENERAL SUMMARY. IT DOES NOT COVER ALL TAX MATTERS THAT MAY BE OF IMPORTANCE TO A PARTICULAR PURCHASER. Some of the assets of the Issuer are located in Kazakhstan. As a result, subject to the following paragraph, it may not be possible: (i) to effect service of process upon the Issuer or any such person outside Kazakhstan; (ii) to enforce against any of them, in courts of jurisdictions other than Kazakhstan, judgments obtained in such courts that are predicated upon the laws of such other jurisdictions; or (iii) to enforce against any of them, in Kazakhstan courts, judgments obtained in jurisdictions other than Kazakhstan.

Kazakhstan's courts will not enforce any judgment obtained in a court established in a country other than Kazakhstan unless (i) there is in effect a treaty between such country and Kazakhstan providing for reciprocal enforcement of judgments and then only in accordance with the terms of such treaty or (ii) there is an actual reciprocity (i.e., the particular judge is satisfied that there is an evidence that judgments obtained in Kazakhstan are enforceable (or were actually enforced) in such other country). For example, there is no such treaty in effect between Kazakhstan and the United Kingdom or the United States; and existence of an actual reciprocity in the United Kingdom or the United States could be difficult or even impossible to prove. However, Kazakhstan is a party to the 1958 New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards (the "Convention") and, accordingly, an arbitral award rendered in a country which is also a party to the Convention should be recognised and enforceable in Kazakhstan provided the conditions to recognition and enforcement set out in the Convention and the laws of Kazakhstan are met.

GOVERNING LAW

The Notes (including the agreement between the SPC and the ETN holders relating to arbitration provided for in the paragraph headed “Arbitration” below), and any non-contractual obligations arising out of or in connection with the Notes, are governed by, and shall be construed in accordance with, the Acting Law of the AIFC.

ARBITRATION

Any claim, dispute, controversy or difference of whatever nature arising under, out of or in connection with the Notes (including a claim, dispute, controversy or difference regarding validity, interpretation, performance, breach or termination of any Notes or any non-contractual obligations arising out of or in connection with the Notes) (a “**Dispute**”), shall be referred to and finally settled by arbitration administered by the International Arbitration Centre of the Astana International Financial Centre (“**IAC**”) in accordance with the IAC Arbitration and Mediation Rules (the “**Rules**”) in force on the date on which the Request for Arbitration is filed with the Registrar of the IAC. The Rules shall be deemed to be incorporated by reference into this Prospectus.

The seat of arbitration shall be Nur-Sultan city, the Republic of Kazakhstan and the language of arbitration shall be English.

In this paragraph:

“**Joinder Order**” means an order by a Tribunal that a Primary Dispute and a Linked Dispute be resolved in the same arbitral proceedings, including a decision of the Tribunal to consolidate a newly commenced arbitration with a pending arbitration.

“**Linked Dispute**” means any Dispute and/or any dispute, claim, difference or controversy arising out of, relating to or having any connection with the Notes, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Notes, in which a Request for Arbitration (as defined in the Rules) is served after a Request for Arbitration (as defined in the Rules) has been served in respect of a Primary Dispute.

“**Primary Dispute**” means any Dispute and/or any dispute, claim, difference or controversy arising out of, relating to or having any connection with the Notes, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Notes, in which a Request for Arbitration (as defined in the Rules) has been served before a Request for Arbitration (as defined in the Rules) has been served in relation to any Linked Dispute.

“**Tribunal**” means any arbitral tribunal appointed under this paragraph.

(i) Any party to both a Primary Dispute and a Linked Dispute may apply to the Tribunal appointed in relation to the Primary Dispute for a Joinder Order in relation to any Linked Dispute.

(ii) The applicant for a Joinder Order must promptly notify all parties to the Primary Dispute and the Linked Dispute of any application under (i) above.

(iii) The Tribunal appointed in relation to the Primary Dispute may, if it considers it just, make a Joinder Order on hearing an application brought under (i) above. In determining whether to make a Joinder Order, the Tribunal must take account of:

- (A) the likelihood and consequences of inconsistent decisions if joinder or consolidation is not ordered;
- (B) any failure on the part of the party seeking joinder or consolidation to make a timely application; and
- (C) the likely consequences of joinder or consolidation in terms of cost and time.

(iv) If the Tribunal makes a Joinder Order:

- (A) it will immediately, to the exclusion of any other Tribunal, have jurisdiction to resolve finally the Linked Dispute in addition to its jurisdiction in relation to the Primary Dispute;

(B) it must order that notice of the Joinder Order and its effect be given immediately to any arbitrator(s) already appointed in relation to the Linked Dispute and to all parties to the Linked Dispute and to all parties to the Primary Dispute; and

(C) any appointment of an arbitrator in relation to the Linked Dispute before the date of the Joinder Order will terminate immediately and that arbitrator will be deemed to be functus officio with effect from the date of the Joinder Order. Such termination is without prejudice to:

- (1) the validity of any act done, or order made by that arbitrator or by the court in support of that arbitration before his appointment is terminated;
- (2) his entitlement to be paid his proper fees and disbursements; and
- (3) the date when any claim or defence was raised for the purpose of applying any limitation bar or any similar rule or provision.

(D) it may also give any other directions it considers appropriate to:

- (1) give effect to the Joinder Order and make provisions for any costs which may result from it (including costs in any arbitration terminated as a result of the Joinder Order); and
- (2) ensure the proper organisation of the arbitration proceedings and the proper formulation and resolution of the issues between the parties.

(v) If a Tribunal appointed in respect of a Primary Dispute hereunder makes a Joinder Order which confers on that Tribunal jurisdiction to resolve a Linked Dispute arising hereunder, that Joinder Order and the award of that Tribunal will bind the parties to the Primary Dispute and the Linked Dispute being heard by that Tribunal.

(vi) For the avoidance of doubt, where a Tribunal is appointed under this paragraph, the whole of its award (including any part relating to a Linked Dispute) is deemed for the purposes of the New York Convention on the Recognition and Enforcement of Arbitral Awards 1958 to be contemplated by this paragraph.

(vii) Each of the Issuer and the ETN holders waives any objection, on the basis of a Joinder Order, to the validity and/or enforcement of any arbitral award made by a Tribunal following any Joinder Order.

RIGHTS OF THIRD PARTIES

No third party (i.e., a party other than the SPC and the ETN holder) shall have any right to enforce any term or condition of this Prospectus in relation to the Notes, including any rights under Part 10 (Rights of Third Parties) of the AIFC Contract Regulations (the AIFC Regulations No. 3 of 2017).
