

PROSPECTUS
of BCC Global Exchange Traded Notes due November 17, 2030
dated December 13, 2022

*This Prospectus is amended and restated Prospectus, initially dated November 17, 2020,
for the purposes of AIFC Market Rules*

General

- The BCC Global Exchange Traded Notes (the “ETNs” or the “Notes”) are senior unsecured debt obligations of Global Fund A SPC Limited (the “SPC” or “Issuer”), a special purpose company incorporated in the Astana International Financial Center (the “AIFC”) whose sole assets are units in the Interval Mutual Fund “CenterCredit-Valyutniy” (the “Units”) (the “Underlying Fund”) and Cash. The base currency of the Underlying Fund is US Dollar (US\$).
- The Underlying Fund is an interval mutual fund incorporated in the Republic of Kazakhstan and managed by BCC Invest Joint Stock Company (the “BCC Invest”). The main investment target of the Underlying Fund is to provide an investment income in U.S. dollars, exceeding the deposit interest rate with moderate risk level due to asset diversification and selection of financial instruments. The Underlying Fund is described in more detail on pages 29 to 30 of this Prospectus (this “Prospectus”).
- The ETNs seek to provide investors a return linked to the performance of the Underlying Fund by holding mainly the units of the Underlying Fund in its assets. **Any payment on the ETNs is subject to the SPC’s ability to pay its obligations (as such obligations described in the Section headed “General terms of the Notes” on pages 14 to 20 of this Prospectus) as they become due.**
- The ETNs are issued by the SPC, which is governed by the AIFC Special Purpose Company Rules (AIFC Rules No. GR0001 of 2017). The SPC is a wholly-owned subsidiary of AIX FM Limited (the “AIX FM”). AIX FM is itself a wholly-owned subsidiary of the Astana International Exchange Limited (the “AIX”). Nor AIX FM neither AIX bears any responsibility towards ETN Holders for obligations of the SPC.
- BCC Invest is acting as an Adviser to the SPC. In this role BCC Invest is responsible for the recommendations on the investment strategy of the SPC, including the recommendation on Permitted Assets as described in more detail on page 16 of this Prospectus.
- As at the date of this Prospectus, BCC Invest assumed obligations to cover all expenses of the SPC. Should this arrangement change, then the expenses of the SPC will be paid out of its assets, decreasing the NAV by the amount of such expenses.
- **Any payment to any ETN Holder upon Maturity, Early Termination or Redemption (each of procedure described in the Section headed “General terms of the Notes” on pages 14 to 20 of this Prospectus) will be effected by payment of the Settlement Amount, which is mix of the Units and Cash. The ETNs bear no principal or face value, therefore the SPC is not obliged to pay any amount in cash.**
- The ETNs are exchange traded securities and investors may sell or buy ETNs on Stock Exchange or in over-the-counter transactions with other investors.
- **An investment in the ETNs involves significant risks and is not appropriate for every investor. The ETNs should be purchased only by knowledgeable investors who understand the potential consequences of investing in the ETNs. Investors should consider their investment horizon as well as potential transaction costs when evaluating an investment in the ETNs and should regularly monitor their holdings of ETNs to ensure that they remain consistent with their investment strategies.**
- The ETNs are senior unsecured debt obligations of the SPC and mature on November 17, 2030.
- The ETNs do not guarantee any return on your investment. Prior to maturity of the Notes, unless the ETNs are either redeemed or terminated in accordance with their terms, ETN holders will only be able to realise the value of their investment by selling the ETNs. On maturity of the ETNs, ETN holders will receive Cash and/or Units.
- The ETNs pay coupon in the amount of dividends related to the Units owned by the SPC, less possible deductions. In case if dividends from the Units are equal to zero, then the coupon will also be equal to zero.

- The base currency of the ETNs is US Dollars (US\$) and the nominal value of the ETNs shall be expressed in US Dollars (US\$). The initial nominal value of one ETN calculated as at the date of the first issuance is equal to 100 US Dollars (US\$). This nominal value is not a principal amount and, accordingly, does not provide the ETN holder with a right to claim this amount from the SPC. The value and price of the ETNs are subject to change on a daily basis, as described in more detail on pages 14 to 20 of this Prospectus.
- The ETNs are listed and traded on AIX under the ticker symbol “**BCCGF**”. The SPC will use all its reasonable efforts to maintain the listing on AIX, but no assurance can be given that the listing on the AIX will be maintained. In case if the listing of the ETNs on AIX will be cancelled or suspended for any reason, the SPC is obliged to declare the early redemption of all ETNs.
- This Prospectus and any changes or amendments to this Prospectus (in the form of supplementary prospectus) will be published on the website of the Stock Exchange (AIX).
- 1 000 ETNs have been issued by the SPC in the amount of the Initial Placement and are sold off-exchange to the Adviser acting as an Initial Purchaser under the Initial Purchaser Agreement concluded with the SPC, where the consideration provided by the Adviser consists of cash in the amount of 100,000 (one hundred thousand) US Dollars (US\$). This amount represents the amount of the Initial Placement. Following the Initial Placement, ETNs are eligible for any public market sales. The Issuer may issue additional ETNs or redeem existing ETNs, as further described in this Prospectus. As at the date of this Prospectus, the issued number of ETNs was 1 000 ETNs.
- Further issuances of the ETNs are carried out by the SPC only upon the request of the Authorised Participants. Such additional issuances of the ETNs will be sold by the SPC to the Authorised Participants off-exchange at the price intended to be approximately close to the NAV. Upon completion of the further issuance (On-Going Placement), ETNs are eligible for any public market sales. The Initial Purchaser and the Authorised Participants have a right to redeem ETNs purchased from the Issuer, on AIX or off-exchange. The redemption of the ETNs will be made off-exchange. **ETN holders (other than Authorised Participant(s)) shall have no right to require the SPC to redeem ETNs.** The SPC and its certain affiliates may engage in purchase and resale transactions in the ETNs, although they are not required to do so and may stop at any time. For a detailed description of these procedures, please refer to the Section headed “General terms of the Notes” on pages 14 to 20 of this Prospectus.

Investing in the ETNs involves a number of risks not associated with an investment in conventional debt securities. See the Section headed “Risk Factors” starting on page 21 of this Prospectus for more information.

Is there a guarantee attached to the Notes?

There is no guarantee attached to the Notes.

What are the key risks that are specific to the Notes?

The ETNs may not be a suitable investment for you if:

- You do not seek an investment with a return linked to the performance of the Underlying Fund which invest in various assets, including securities.
- You believe that the price of Units will decline during the term of the ETNs or the price of the Underlying Fund will not increase by an amount sufficient to meet your investment objectives.
- You do not understand that the trading price of the ETNs at any time may vary significantly from the NAV and that paying a premium purchase price over the NAV could lead to significant losses in the event you sell the ETNs at a time when such premium is no longer present in the market place or (as the case may be) the SPC exercises its Early Termination Right.
- You are not willing to accept the risk that you may lose some or all of your investment.
- You are not willing to actively and frequently monitor your investment in the ETNs.
- You do not have sufficient knowledge and experience to evaluate how the ETNs may perform under different conditions or the merits and risks of an investment in the ETNs.
- You do not understand the terms of the investment in the ETNs or are not familiar with the behavior of the Underlying Fund or financial markets generally.

- You are not willing to hold securities that may be redeemed early by the SPC pursuant to the exercise of its Early Termination Right.
- You are not willing to accept the risk that the price at which you are able to sell the ETNs may be significantly less than the amount you invested.
- You do not have sufficient financial resources and liquidity to bear the risks of an investment in the ETNs, including the risk of loss of such investment.
- You are not comfortable with creditworthiness of the SPC as issuer of the ETNs.

Investors considering purchasing the ETNs should reach an investment decision only after carefully considering the suitability of the ETNs in light of their particular circumstances.

You may lose some or all of your investment

The ETNs are fully exposed to any decline in the Underlying Fund. If the price of Units on the date of your sale is less than the price of Units at the date of your purchase and taking into account any coupon payments received by you, you will lose some or all of your investment at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be).

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase because the NAV is calculated based on the price of Units on each Business Day less accrued but unpaid Expenses.

The ETNs bear a floating coupon

There is no guaranteed or fixed coupon attached to the ETNs. The ETNs are bearing a floating coupon, which directly linked to the cash dividends on Units received by the SPC after deductions. In case if the Underlying Fund will stop paying dividends, then the amount of the coupon on ETNs will be zero.

Amount of coupon paid may not be equal to the amount of dividend payments declared by the Underlying Fund

Any coupon paid by the SPC on ETNs is paid out of net cash dividends actually received by the SPC after the deduction of taxes and transactional costs. Thus, Coupon Amount may be lower than the amount of dividend payments declared and paid by the Underlying Fund.

Tax implications if ETNs are excluded from the official list of the Stock Exchange

If ETNs are excluded from the official list of the AIX, all income on ETNs will be subject to taxation based on the Kazakhstan Tax Code. Although the SPC will use its best efforts to maintain the ETNs on the official list of the AIX, in circumstances where this is not possible, the exclusion of the ETNs from the official list of the AIX may negatively affect the tax position of holders of ETNs for tax purposes, as well as their market price.

Tax on revenues on Units owned by the SPC may reduce the NAV

Under normal circumstances, the SPC will sell and buy Units in the ordinary course of business; also it may sell the Units to cover its Expenses. Besides, the redemption of ETNs is reflected as a sale of the Units. In circumstances where the difference between the price of sale and the initial price of the Units is positive, such a positive amount will be included in the aggregate annual income of the SPC according to the applicable Kazakhstan tax legislation. Also, the SPC as an owner of Units may receive dividends or other distributions from the Units less by possible deductions (taxes, transactional fees, etc.). Such dividends and distributions received will be included in the aggregate annual income of the SPC. It is not guaranteed that, at the end of the calendar year, the deductible expenses of the SPC will be higher than the aggregate annual income and there will be no corporate income tax payable. Accordingly, the SPC may be obliged to pay taxes that will decrease the NAV.

The SPC may redeem the ETNs prior to the Maturity Date by exercising its Early Termination Right

On any Business Day, the SPC may elect to redeem all, but not less than all, of the outstanding ETNs with no less than 60 calendar days' prior notice by exercising its Early Termination Right. If the SPC elects to redeem your ETNs pursuant to the exercise by the SPC of its Early Termination Right, you may not be able to reinvest at comparable terms or returns.

Risk of changing interest rates

The value of the Underlying Fund may decline when interest rates fall or rise. This decline can occur because the Underlying Fund may subsequently invest in interest-sensitive assets.

You have no rights or interests in any Units

Investing in the ETNs will not make you a holder of any rights or interest in the Underlying Fund (including the Units). Neither you nor any other holder or owner of the ETNs will have any voting rights, any right to receive fixed dividends

or other distributions or any other rights with respect to the Underlying Fund (including the Units). Accordingly, the return on your ETNs may not reflect the return you would realise if you actually owned the Units.

The market value of the ETNs may be influenced by many unpredictable factors

The market value of your ETNs may fluctuate greatly during the term of the ETNs. Generally, the value of the Units will affect the market value of the ETNs more than any other factor. Other factors that may influence the market value of the ETNs include:

- the volatility of the Underlying Fund (i.e., the frequency and magnitude of changes in the value of the Underlying Fund);
- the market price of the Units; volatility, earnings, financial conditions, corporate, industry and regulatory developments, and other events affecting the companies whose common shares, preferred stock or debt instruments are included in the Underlying Fund;
- the prevailing prices and yields for the Units;
- the time remaining to the maturity of the ETNs;
- supply and demand for the ETNs, including to the extent such supply and demand may be affected by inventory positions held by the SPC or any market maker;
- economic, financial, political, regulatory, geographical, agricultural, judicial, military, public health, environmental or other events that affect the value of the Underlying Fund, or that affect markets generally; and
- the actual and perceived creditworthiness of the SPC.

These factors interrelate in complex ways, and the effect of one factor on the market value of your ETNs may offset or (as the case may be) amplify the effect of other factors.

The liquidity of the market for the ETNs may vary materially over time and may be limited

As stated in this Prospectus, the SPC sold the Initial Amount of the ETNs to the Adviser. Additional ETNs may also be offered and sold from time to time by the SPC to Authorised Participants. In addition, the number of ETNs outstanding or held by persons other than affiliates of the SPC could be reduced at any time due to redemptions of the ETNs. The SPC may suspend or cease sales of the ETNs at any time, at its sole and absolute discretion. Accordingly, the liquidity of the market for the ETNs could vary materially over the term of the ETNs. Only the Authorised Participants may request redemption of the ETNs prior to their maturity, and the Redemption is subject to the conditions and procedures described elsewhere in this Prospectus.

Changes that affect the calculation of the NAV will affect the market value of the ETNs and the Settlement Amount

The amount payable on the ETNs and their market value could be affected if trading/redemption in the Units is suspended or cancelled, in which case it may become difficult to determine the market value of the ETNs. If events such as these occur, or if the value of the Underlying Fund is not available because of a market disruption event or for any other reason, the SPC will make a good faith estimate at its sole and absolute discretion in its calculation of the NAV.

Historical values of the Underlying Fund should not be taken as an indication of future performance during the term of the ETNs

The actual performance of the Underlying Fund over the term of the ETNs, as well as the amount payable at maturity, upon early Redemption or upon the exercise by the SPC of its Early Termination Right, may bear little relation to the historical performance of the Underlying Fund. As a result, it is impossible to predict whether the price of ETNs will rise or fall.

There may not be an active trading market in the ETNs; sales in the secondary market may result in significant losses

The ETNs are listed on AIX. However, the SPC is not required to maintain any listing of the ETNs on AIX or any other stock or quoted exchange. The SPC and its certain affiliates may engage in purchase and resale transactions in the ETNs, although they are not required to do so and may stop at any time. If an active secondary market exists, the SPC expects that ETN holders will purchase and sell the ETNs primarily in this secondary market. Even if an active secondary market for the ETNs exists, it may not provide significant liquidity or trade at prices advantageous to you. As a result, if you sell your ETNs in the secondary market, you may have to do so at a discount from your initial purchase price and you may suffer significant losses.

KEY INFORMATION ON THE ADMISSION TO TRADING

Under which conditions and timetable can I invest in the Notes?

ETNs are listed and admitted to trading on AIX on November 24, 2020.

Why is this Prospectus being produced?

This Prospectus has been produced for the ETNs to be admitted to trading on AIX. Besides, in accordance with AIFC Market Rules, SPC may not offer additional ETNs, unless there is an approved prospectus, which is not older than 12 months as at a respective placement date; therefore the SPC shall update the Prospectus from time to time.

Conflicts of Interest

Disclosures on affiliated companies within AIX group.

AIX FM is a wholly-owned subsidiary of AIX and acts as a Management company of SPC and enters into all necessary agreements in this Prospectus on behalf of SPC. Whereas, AIX CSD, AIX Registrar and AIX MLS are wholly-owned subsidiaries of AIX and may from time to time act as administrator, registrar, transfer-agent, representative or otherwise as may be required from time to time in relation to this Prospectus, or be otherwise involved in or with other funds and clients which have similar investment objectives to those of SPC. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the SPC. Each of these companies will, at all times, have regard in such event to its obligations to the SPC and will endeavor to ensure that such conflicts are resolved fairly and taking into account interests of the investors. Each of these companies has measures in place to minimize potential conflicts of interest.

The services of companies provided to the SPC are not deemed to be exclusive and each of these companies shall be free to render similar services to others so long as its services hereunder are not impaired thereby and to retain for its own use and benefit all fees and other money payable thereby and companies shall not be under any duty to disclose to the SPC any fact or thing which comes to the notice of companies in the course of it rendering similar services to others or in the course of its business in any other capacity or in any manner whatsoever otherwise than in the course of carrying out its duties under contracts with SPC.

Conflicts of interest may also arise due to the widespread business operations of companies and their connected persons (CEO, CFO, Directors). The foregoing parties may effect transactions where those conflicts arise and shall not, subject to the terms of contracts be liable to account for any profit, commission or other remuneration arising. However, all transactions carried out by or on behalf of SPC will be on arm's length terms.

In the event that any conflicts of interest arises, each company will, at all times, have regard in such event to its obligations under contracts and, in particular, to its obligations to act in the best interests of the SPC and the ETN holder (s) so far as practicable. Companies will endeavor to ensure that such conflicts are resolved fairly and taking into account interests of the investors.

Disclosures on conflict of interest related to the activity of the Adviser.

The Underlying Fund is managed by BCC Invest JSC who is at the same time an Adviser. Although the activities of the Adviser in relation to the SPC is not related to the activities of the management company of the Underlying Fund, there are certain risks associated with the fact that the quality of the Adviser's recommendations may be affected by the affiliation with the management company of the Underlying Fund. Also, BCC Invest JSC currently acts as a market maker for the Underlying Fund on the Kazakhstan Stock Exchange and acts as a market maker for the ETNs on AIX. BCC Invest might have internal conflict of interests regarding the cooperation with the SPC. BCC Invest, at all times, have regard in such event to its obligations to the SPC and will endeavor to ensure that such conflicts are resolved fairly and taking into account interests of investors. BCC Invest has measures in place to minimize potential conflicts of interest.

Use of Proceeds

The net proceeds of the issue of the Notes will be used by the Issuer for investments in the Permitted Assets only.

Estimated Expenses

The SPC will pay the following expenses:

- Advisory Fee; and
- other expenses.

As at the date of the Prospectus, the Adviser has assumed the obligation to pay all Expenses of the SPC. If this arrangement changes, a situation is possible in which the Expenses of the SPC will be paid at the expense of its assets. In such case, the effect of the SPC paying Expenses at the expenses of its assets, is to reduce the NAV.

GENERAL TERMS OF THE NOTES

The following are general terms of the ETNs and other considerations you should take into account when deciding whether to invest in the ETNs.

The Notes	BCC Global Exchange Traded Notes due November 17, 2030 ISIN: KZX000000575
Issue Price	The value and price of the ETNs will be subject to change on a daily basis as described in more detail on pages 14 to 21 of this Prospectus
Currency and denomination of the Notes	The base currency of the ETNs is US Dollars (US\$) and the nominal value of the ETNs shall be expressed in US Dollars (US\$). The initial nominal value of one ETN calculated as at the date of the initial Prospectus dated 17 November 2020 was equal to 100 US Dollars (US\$). This nominal value is not a principal amount and, accordingly, does not provide the ETN holder with a right to claim this amount from the SPC. The value and price of the ETNs are subject to change on a daily basis, as described in more detail on pages 14 to 21 of this Prospectus.
The number of Notes issued and their term	Number of ETNs issued as at the date of this Prospectus: 1 000. This amount represents the amount of the Initial Placement. The Issuer may issue additional ETNs and/or redeem issued ETNs as further described in this Prospectus. Term of the Notes: 10 years from the date of issuance of the ETNs, subject to the right of an Authorised Participant to require the SPC to redeem the ETNs, the right of the SPC to exercise its Early Termination Right or (as the case may be) the right of the SPC to extend the term of the ETNs, each as described on pages 14 to 21 of this Prospectus.
The rights attached to the Notes	Each ETN holder is eligible to receive the Settlement Amount on the Maturity Date, subject to certain conditions being satisfied, as described in more detail on page 18 of this Prospectus.
Issue Date	November 17, 2020. The SPC is obliged to disclose all further issuances of ETNs on AIX.
Maturity Date	November 17, 2030
Interest Rate and Interest Payment Dates	The ETNs bear floating coupon rate directly linked to the cash dividends received by the SPC after deductions in relation to the Units owned by the SPC. Coupon Payment Date is any date being a Business Day within 2 Business Days following the date on which the SPC will receive cash dividends related to the securities of the Underlying Fund.
Transferability	The ETNs are freely transferable in accordance with the relevant legislation of the AIFC.
Ranking of ETNs	The ETNs constitute direct, unconditional and unsecured obligations of the Issuer and rank and will rank: (i) <i>pari passu</i> , without any preference among themselves; and (ii) as senior debt with preference over all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future, but, in each case, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

What are the ETNs and how do they work?

The ETNs are unsecured senior debt obligations of Global Fund A SPC Limited, a special purpose company governed by the AIFC Special Purpose Company Rules (AIFC Rules No. GR0001 of 2017) and incorporated in the AIFC (the “**SPC**”). The assets of the SPC are a combination of units in the Underlying Fund (the “**Units**”) and cash in US Dollars and/or Kazakhstani tenge in hand of the SPC and, to the extent only if they are immediately available for withdrawal or otherwise immediately available to the SPC, all deposits of the SPC with any bank/brokerage company/custodian (the “**Cash**”). The Cash and the Units are held in account of the SPC with the Custodian.

Over the term of the ETNs, the NAV will generally fluctuate in line with the change in value of the Underlying Fund (as explained in more detail immediately below).

Underlying Net Asset Value

The NAV equals to:

the net asset value of a Unit as quoted by the Underlying Fund as at the preceding Business Day
multiplied by

the number of Units held by the SPC
plus
 Cash
plus
 accrued but not received dividends and receivables
plus
 any other assets
less
 accrued but unpaid Expenses and Coupon Amount
less
 any other liabilities (excluding ETNs issued).

The NAV per ETN is calculated by dividing the NAV by the number of ETNs outstanding.

The Management Company has a right, acting reasonably and prudently, to adjust the calculation of the NAV by excluding or (as the case may be) including certain items in order to determine the correct value of the assets of the SPC.

The NAV is calculated on each Business Day and usually published on the website of the Stock Exchange at www.aix.kz no later than 11:00 a.m. Astana time on that Business Day. In case if the Underlying Fund will postpone the publication of the closing price of Units for any reason, then the publication of the NAV will be postponed accordingly.

The NAV is rounded down to the nearest cent.

No interim NAV will be calculated and/or published by any person (including, without limitation, the SPC, AIX FM or the AIX).

As a result of On-Going Placement(s) and Redemption(s), and the buying and selling of ETNs on the AIX, it is expected (but not guaranteed) that the price of the ETNs traded on the AIX will over time closely track the NAV.

Currency conversion.

The NAV is calculated and published in US Dollars (US\$). For the purposes of calculation of NAV, all assets and liabilities which are denominated in other currencies will be translated into US Dollars (US\$) at the prevailing market rates.

Permitted Assets

As at the date of this Prospectus, the SPC shall be entitled to hold the following assets only:

- Units; and
- Cash.

All assets of the SPC in the form of Units and Cash are held by the Custodian under the terms of the Custody Agreement.

Target asset allocation

The SPC's target asset allocation and asset allocation ranges are set out in the table below:

Asset Class	Intended Target	Range
Units	100%	95% - 100%
Cash	0%	0% - 5%

Safekeeping of the SPC's assets by the Custodian

Eurasian Bank JSC, a legal entity incorporated under the laws of the Republic of Kazakhstan has agreed to act as a custodian for the Units and Cash owned by the SPC, pursuant to and in accordance with the terms and conditions of the Custody Agreement signed on May 04, 2022.

In accordance with the terms of the Custody Agreement, the Custodian is liable for the safekeeping of the Units and Cash owned by the SPC and held in the SPC's accounts with the Custodian.

Units and Cash held in the accounts of the SPC with the Custodian cannot be used in the interests of the Custodian and/or its affiliates and are not subject to any claims by the creditors of the Custodian.

The SPC has the right at its sole and absolute discretion to appoint another custodian approved by the Adviser to replace the Custodian and to transfer all the Units and/or Cash to such new custodian with immediate notification to the ETN Holders.

Adviser

In accordance with the Advisory Agreement, BCC Invest has agreed to act as an Adviser to the SPC. In this role BCC Invest is responsible for the recommendations on the investment strategy of the SPC, including the recommendation on Permitted Assets.

As at the date of this Prospectus, the Adviser has recommended and the SPC has decided that the Permitted Assets shall include only:

- Units, being units in Interval Mutual Fund “CenterCredit-Valyutniy”; and
- Cash.

This decision on the Permitted Assets may be changed by the SPC based on the recommendation of Adviser at any time, provided that:

- any recommendation to change the Permitted Assets was made by the Adviser on the basis of reasonable grounds and does not contradict the law and/or interests of the ETN Holders;
- any recommendation to change the Permitted Assets was preliminary discussed and approved by the Management Company; and
- the SPC informed the ETN Holders about the planned change of the Permitted Asset at least 60 calendar days before the date of the change of the Permitted Asset.

In return for its services, the Adviser is entitled to receive the Advisory Fee, which is calculated as a difference (positive or negative) between any revenues received by the SPC (in the form of the Total Expense Ratio determined by the Adviser) and all expenses paid or to be paid by the SPC.

The Advisory Fee is accrued on a daily basis and paid monthly by the SPC.

Expenses

The SPC is paying the following expenses:

- Advisory Fee; and
- other expenses.

The Advisory Fee is described above.

The other expenses include all costs, charges, fees and expenses incurred in the operation of the SPC, including but not limited to the transactional costs, banking costs, brokerage costs, borrowing costs, the costs and expenses of obtaining and maintaining authorisations or registrations with regulatory authorities, professional fees, expenses for auditing, interest payments and other fees.

The SPC and the Adviser agreed that all agreements that imply any obligation of the SPC to pay any fee shall be approved in writing by the Adviser, prior to its execution.

In addition to the Expenses indicated above, the SPC may, in exceptional circumstances, pay costs that relate to the ETNs that arise outside of agreements and the ordinary course of business such as taxes, litigation expenses and any other extraordinary expenses.

Total Expense Ratio

The Total Expense Ratio is the ratio of the Expenses, including all fees and costs, accrued on a daily basis, to the NAV. The Adviser is responsible for the determination of the Total Expense Ratio.

As at the date of this Prospectus, the Adviser decided that the Total Expense Ratio shall be nil.

This effectively means that as at the date of this Prospectus the Adviser is responsible for discharging all expenses and costs of the SPC out of its own assets.

This decision on the size of the Total Expense Ratio may be changed by the Adviser at any time, provided that:

- at any time the Total Expense Ratio cannot exceed 3 percent;

- the Adviser has notified the SPC within the reasonable timeframe to enable the SPC to inform the ETN Holders about the planned change of the Total Expense Ratio at least 60 calendar days before the date of the change of the Total Expense Ratio.

In case if the Adviser has failed to comply with its obligations, including but not limited to cover the Expenses, then the SPC has a right to:

- sell the Units and/or use Cash to pay its Expenses;
- enforce its Early Termination Right.

In this case, the above expenses of the SPC are deducted from, and reflected in the value of, the SPC and, accordingly, the NAV. The effect of the SPC paying Expenses out of its assets, which is Units and Cash, is therefore to reduce the NAV.

Coupon Amount

For avoidance of doubt, the Coupon Amount and any withholding (or other taxes) associated with the net cash dividends related to the Units will not be included in expenses for the purpose of calculation of the Total Expense Ratio.

Any withholding (or other taxes) associated with the net cash dividends related to the Units owned by the SPC will decrease the Coupon Amount and will not affect the NAV.

Dividends and distributions received from the Units

The net cash dividends in US Dollars actually received by the SPC related to the Units owned by the SPC will be distributed to the ETN Holders in the form of Coupon Amount.

As soon as SPC receive any net cash dividends from Units owned by the SPC, the SPC shall:

- immediately announce payment of coupon (on a Coupon Announcement Date);
- on a Coupon Payment Date pay the Coupon Amount to the ETN Holders.

The Coupon Amount may differ from the amount of dividends declared by the Underlying Fund because of possible deduction of withholding or other taxes, transactional or other costs.

In case if the SPC will receive cash dividends in currency other than US Dollars or the SPC will receive other distributions (not in cash), the SPC has a right to take any reasonable actions to convert all and any cash dividends or other distributions received in cash in US Dollars and distribute it to the ETN Holders on the next Coupon Payment Date (or any other date chosen by the SPC).

ETN Holders eligible to receive the Coupon Amount will be those holders on the Coupon Record Date based on the information provided by the AIX Registrar to the SPC.

In case if the SPC will receive any cash dividends or other distributions related to the Units owned by the SPC after the Maturity Date and/or Redemption Date, they will be distributed to the ETN Holders in the same manner (with the Maturity Date as a Coupon Record Date).

Placement of ETNs

The SPC will issue and place new ETNs via On-Going Placements.

Initial Placement

The Initial Placement of ETNs carried out via direct subscription by the Adviser pursuant to and in accordance with the terms and conditions of the Initial Purchaser Agreement.

Under the Initial Purchaser Agreement, in November 2020 the Adviser purchased ETNs in exchange for Cash in the amount of 100,000 U.S. Dollars. Cash received by the SPC from the Adviser used to buy Units from the Underlying Fund, and, upon receipt of 96.02415 Units from the Underlying Fund, the SPC provided 1 000 ETNs to the Adviser.

Amount of the Initial Placement – 1 000 ETNs.

Following the Initial Placement, ETNs are eligible for any public market sales; and the terms and conditions of the Subscription Agreement are not applicable to any on-sale.

On-Going Placements

All On-Going Placements shall be carried out via transactions with Authorised Participants in exchange for Cash in an amount not less than the Creation Amount.

The SPC has absolute discretion to accept or reject in whole or in part any Placement Notice for ETNs. In addition, the SPC may impose such restrictions as it believes at its sole and absolute discretion are necessary to ensure compliance with applicable legislation and anti-money laundering procedures.

The SPC has a right to modify the Creation Amount at its sole and absolute discretion at any time with prior written notification to the Authorised Participants published on the website of the Stock Exchange at www.aix.kz.

Procedure for On-Going Placement

On any Business Day the Authorised Participant may:

- submit to the SPC an irrevocable Placement Notice;
- transfer to the SPC the cash to its account with the Custodian in the amount specified in the Placement Notice.

The SPC shall receive the Placement Notice and cash not later than 4:00 p.m. on this Business Day and confirm to the Authorised Participant that its Placement Notice will be satisfied.

On the same Business Day, the SPC shall immediately transfer all cash received from the Authorised Participant to the Underlying Fund and submit request for Unit issuance.

Upon receipt of Units from the Underlying Fund to its account with the Custodian, the SPC shall calculate number of ETNs to be issued (based on the proportion of the Units it had prior to the Placement Notice to the Units received from the Underlying Fund). In case if number of ETNs to be provided to the Authorised Participant is not an integral number, the SPC shall calculate the amount of additional cash to be provided by the Authorised Participant (by multiplying the missing fractional part of ETN by the NAV per ETN on the morning of this business day) and request the Authorised Participant to provide the additional cash.

Upon receipt of the additional cash, the SPC shall request AIX Registrar to issue ETNs and to transfer these ETNs to the Authorised Participant.

Upon completion of the On-Going Placement, ETNs are eligible for any public market sales; and the terms and conditions of the Authorised Participant Agreement are not applicable to any on-sale.

Any legal entity may apply for an Authorised Participant status to the SPC if such entity indicates its willingness to so participate and the Adviser has agreed with such new Authorised Participant.

Market Making

The Authorised Participant being a trading member of AIX may also act as market maker on ETNs on the Stock Exchange. Such activity is performed in accordance with a market maker agreement signed between the AIX trading member and the Stock Exchange.

A market maker is performing market making activities providing two-way bid and ask quotes in relation to the ETNs on the AIX with the principal purpose, among others, of providing liquidity and facilitating a reliable price formation process in respect of the ETNs on the AIX.

Settlement Amount

The Settlement Amount is a proportion of the Units and Cash owned by the SPC less accrued but unpaid Expenses (if any); the Settlement Amount per ETN is equal to the Settlement Amount divided by the ETNs outstanding.

Accrued but unpaid Expenses (if any) will be deducted from the amount of Cash due to the ETN holder. If the amount of Cash due to the ETN holder is less than the amount of accrued but unpaid Expenses, then the SPC will decrease the number of Units that are due to such ETN holder and increase the Cash due to such ETN holder, from which the accrued but unpaid Expenses will then be paid in full.

In case if ETN Holder is unable to receive the Units for any reason, then, the SPC, acting on its sole discretion and if instructed so by such ETN Holder, may surrender the Units to the Underlying Fund and receive cash in return. In this case the SPC is obliged to return to such ETN Holder the same amount of cash received less any banking fees.

Maturity Date

On the Maturity Date the SPC will pay the Settlement Amount to ETN holders in accordance with instructions received from ETN holders.

The Settlement Amount will be transferred to ETN holders appearing on the register of ETN holders provided by the AIX Registrar as at the Maturity Date.

On the Maturity Date, the SPC will request that the AIX Registrar cancel all outstanding ETNs.

Each ETN holder will be required to provide its banking and securities accounts details not later than 30 calendar days before the Maturity Date. Such instructions shall be submitted via brokerage companies being the participants of AIX CSD.

In the event no details of either a securities account or bank account are provided to the SPC within the required time period or such instructions are missing or include inaccurate information or (as the case may be) such instructions lack the required information, the Units and/or Cash will be retained by the SPC in escrow. Such unclaimed Units will be redeemed or sold after 30 calendar days following the Maturity Date and the monies received from such sale will be held to the order of the relevant ETN holder together with such other retained Cash, in each case to the extent permissible under applicable law and until such time as such ETN holder claims such monies and retained Cash.

Early Termination Right

With 60 calendar days' notice, on any Business Day through and including the Maturity Date, the SPC, at its sole and absolute discretion, may redeem all, but not less than all, of the issued and outstanding ETNs. Such redemption will be effected by the SPC by declaration of a new Maturity Date and respective actions to be undertaken in accordance with procedures described for the Maturity Date.

Any such notification by the SPC of the Early Termination Right is irrevocable.

Upon execution of the Early Termination Right, each ETN holder will receive the Settlement Amount, which will be calculated as described above. If the amount so calculated is less than zero, the Settlement Amount will be zero.

Redemption

An Authorised Participant may submit, via a broker who is a trading member of the AIX, an irrevocable request in accordance with and pursuant to the Authorised Participant Agreement ("**Redemption Notice**") requiring the SPC to redeem the ETNs provided that any such Redemption Notice is in an amount not less than the Redemption Amount.

Such Redemption Notice shall be submitted to the SPC not later than 3 business days prior to the Redemption Date.

Once the Redemption Notice has been confirmed, on a Redemption Date such Authorised Participant shall transfer ETNs to the SPC (in the amount specified in the Redemption Notice) and ensure that the SPC receives such ETNs not later than 2:00 p.m.

Each Redemption Notice shall contain bank and securities accounts details.

On the Redemption Date, the SPC shall calculate number of Units it needs to surrender to the Underlying Fund for redemption (based on the proportion of ETNs surrendered for redemption to the total number of ETNs outstanding). This number of Units the SPC shall surrender for redemption to the Underlying Fund together with redemption request.

Upon receipt of cash from the Underlying Fund, the SPC shall immediately transfer this cash (together with a portion of the Cash held by the SPC prior to the Redemption request, which is calculated in an equal proportion to ETNs submitted for redemption) to the Authorised Participant and require AIX Registrar to cancel ETNs redeemed.

No Redemption Notice will be accepted during the period of 30 calendar days prior to the Maturity Date.

Default/Liquidation of the Underlying Fund

Since the obligations of the SPC is to return the Units and Cash to ETN Holders, in case if the Underlying Fund will default or will be unable to redeem the Units due to any reasons or decide to liquidate itself, then the liability of the SPC towards the ETN Holders is limited only to amount it has actually received from the Underlying Fund for Units it owns less any Expenses accrued and/or incurred by the SPC.

Borrowing

The SPC does not intend to borrow money. However, the SPC may borrow money for working capital purposes only and with prior written consent of the Adviser. It is anticipated that, under normal market conditions, any borrowing by the SPC in aggregate will not exceed 3 (three) percent of the NAV.

Extension of the ETNs' term

The SPC may at any time with prior written consent of the Adviser extend the maturity of the ETNs with 60 days prior written notification to ETN holders by means of a notification on the website of the Stock Exchange at www.aix.kz.

Other than the extension of the Maturity Date, all the other terms of the ETNs will remain the same.

Listing on the Stock Exchange

ETNs are listed on the official list of AIX and admitted to trade on AIX.

The SPC will use all its reasonable efforts to maintain the listing on AIX, but no assurance can be given that the listing on the AIX will be maintained. In case if the listing of the ETNs on AIX will be cancelled or suspended for any reason, the SPC is obliged to declare the Early Termination of all ETNs outstanding.

Limitation of the liability of the SPC, Management Company and Stock Exchange

No obligation lies with the SPC towards the ETN Holders, except the obligation to repay the ETNs by paying the Settlement Amount, which is mix of the Units and Cash. The ETNs bears no principal or face value, therefore the SPC is not obliged to pay any amount in cash.

The SPC is managed by the Management Company as described on page 31 to 32 of this Prospectus. In accordance with the Management Agreement concluded between the SPC and the Management Company, the Management Company is not liable for any obligations of SPC and liability of the Management Company is limited only to direct losses of the SPC arisen as a result of willful misconduct and gross negligence by the Management Company.

The Stock Exchange being the ultimate beneficiary owner of the SPC and the Management Company has no obligations or any other liability towards ETN Holders.

Information published by the SPC

The SPC is publishing the following information on a daily basis (not later than 11:00 a.m. Astana time) on the Stock Exchange's website at www.aix.kz:

- the NAV; and
- the amount of Cash and Units

Notification to ETN holders

All notifications to holders of ETNs as well as publication of an annual report and other information concerning the SPC will be carried out via notifications on the website of the Stock Exchange at www.aix.kz. The SPC can change the notification method with 30 calendar days' prior notice to ETN holders, such notification to be published on the website of the Stock Exchange at www.aix.kz.

Inquiries of ETN holders

All inquiries and requests of and from the ETN holders (except notification of the Settlement Amount) shall be sent to the registered post address of the SPC as follows: Mangilik El 55, building 19, Astana, Kazakhstan, to the attention of Fund Operation.

Base of calculation

For all calculations involving the number of days in a year, a calendar year of 365/366 days shall apply.

Changes to this Prospectus

The SPC may amend or change this Prospectus at any time with prior written consent of the Adviser by the issuance of a supplementary prospectus.

RISK FACTORS

Your investment in the ETNs will involve risks. The ETNs are not secured debt and are riskier than ordinary unsecured debt securities. As described in more detail below, the trading price of the ETNs may vary considerably before the Maturity Date due to, among other things, fluctuations in the markets on which the Underlying Fund and/or its assets are traded and other events that are difficult to predict and beyond control of the SPC. Investing in the ETNs is not equivalent to investing directly in the Underlying Fund. This Section of this Prospectus describes the most significant risks relating to an investment in the ETNs.

The SPC urges you to read the following information about these risks, together with the other information in this Prospectus, before investing in the ETNs.

RISK FACTORS RELATED TO THE ETNs

The ETNs may not be a suitable investment for you if:

- You do not seek an investment with a return linked to the performance of the Underlying Fund which invest in various assets, including securities.
- You believe that the price of Units will decline during the term of the ETNs or the price of the Underlying Fund will not increase by an amount sufficient to meet your investment objectives.
- You do not understand that the trading price of the ETNs at any time may vary significantly from the NAV and that paying a premium purchase price over the NAV could lead to significant losses in the event you sell the ETNs at a time when such premium is no longer present in the market place or (as the case may be) the SPC exercises its Early Termination Right.
- You are not willing to accept the risk that you may lose some or all of your investment.
- You are not willing to actively and frequently monitor your investment in the ETNs.
- You do not have sufficient knowledge and experience to evaluate how the ETNs may perform under different conditions or the merits and risks of an investment in the ETNs.
- You do not understand the terms of the investment in the ETNs or are not familiar with the behavior of the Underlying Fund or financial markets generally.
- You are not willing to hold securities that may be redeemed early by the SPC pursuant to the exercise of its Early Termination Right.
- You are not willing to accept the risk that the price at which you are able to sell the ETNs may be significantly less than the amount you invested.
- You do not have sufficient financial resources and liquidity to bear the risks of an investment in the ETNs, including the risk of loss of such investment.
- You are not comfortable with creditworthiness of the SPC as issuer of the ETNs.

Investors considering purchasing the ETNs should reach an investment decision only after carefully considering the suitability of the ETNs in light of their particular circumstances.

You may lose some or all your investment

The ETNs are fully exposed to any decline in the Underlying Fund. If the price of Units on the date of your sale is less than the price of Units at the date of your purchase, and taking into account any coupon payments received by you, you will lose some or all of your investment at maturity, upon Redemption or upon exercise by the SPC of its Early Termination Right (as the case may be).

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase

The NAV on the Maturity Date or the Redemption Date may be less than the NAV on the date of your purchase because the NAV is calculated based on the price of Units on each Business Day less accrued but unpaid Expenses.

The ETNs bear a floating coupon

There is no guaranteed or fixed coupon attached to the ETNs. The ETNs are bearing a floating coupon, which directly linked to the cash dividends on Units received by the SPC after deductions. In case if the Underlying Fund will stop paying dividends, then the Coupon Amount will be zero.

Amount of coupon paid may not be equal to the amount of dividends declared by the Underlying Fund

Any coupon paid by the SPC on ETNs is paid out of net cash dividends actually received by the SPC after the deduction of taxes and transactional costs. Thus, Coupon Amount may be lower than the amount of dividends declared and paid by the Underlying Fund.

Tax implications if ETNs are excluded from the official list of the Stock Exchange

If ETNs are excluded from the official list of the AIX, all income on ETNs will be subject to taxation based on the Kazakhstan Tax Code. Although the SPC will use its best efforts to maintain the ETNs on the official list of the AIX, in

circumstances where this is not possible, the exclusion of the ETNs from the official list of the AIX may negatively affect the tax position of holders of ETNs for tax purposes, as well as their market price.

Tax on revenues on Units owned by the SPC may reduce the NAV

Under normal circumstances, the SPC will sell and buy Units in the ordinary course of business; besides it may sell the Units to cover its Expenses. In certain circumstances, the SPC may sell the Units it owns to cover its Expenses. Besides, the redemption of ETNs is reflected as a sale of the Units. In circumstances where the difference between the price of sale and the initial price of the Units is positive, such a positive amount will be included in the aggregate annual income of the SPC according to the applicable Kazakhstan tax legislation. Also, the SPC as an owner of Units may receive dividends or other distributions from the Units less possible deductions (taxes, transactional fees, etc.). Such dividends and distributions received will be included in the aggregate annual income of the SPC. It is not guaranteed that, at the end of the calendar year, the deductible expenses of the SPC will be higher than the aggregate annual income and there will be no corporate income tax payable. Accordingly, the SPC may be obliged to pay taxes that will decrease the NAV.

The SPC may redeem the ETNs prior to the Maturity Date by exercising its Early Termination Right

On any Business Day, the SPC may elect to redeem all, but not less than all, of the outstanding ETNs with no less than 60 calendar days' prior notice by exercising its Early Termination Right. If the SPC elects to redeem your ETNs pursuant to the exercise by the SPC of its Early Termination Right, you may not be able to reinvest at comparable terms or returns.

Risk of changing interest rates

The value of the Underlying Fund may decline when interest rates fall or rise. This decline can occur because the Underlying Fund may subsequently invest in interest-sensitive assets.

You have no rights or interests in any Units

Investing in the ETNs will not make you a holder of any rights or interest in the Underlying Fund (including the Units). Neither you nor any other holder or owner of the ETNs will have any voting rights, any right to receive fixed dividends or other distributions or any other rights with respect to the Underlying Fund (including the Units). Accordingly, the return on your ETNs may not reflect the return you would realise if you actually owned the Units.

The market value of the ETNs may be influenced by many unpredictable factors

The market value of your ETNs may fluctuate greatly during the term of the ETNs. Generally, the value of the Units will affect the market value of the ETNs more than any other factor. Other factors that may influence the market value of the ETNs include:

- the volatility of the Underlying Fund (i.e., the frequency and magnitude of changes in the value of the Underlying Fund);
- the market price of the Units; volatility, earnings, financial conditions, corporate, industry and regulatory developments, and other events affecting the companies whose common shares, preferred stock or debt instruments are included in the Underlying Fund;
- the prevailing prices and yields for the Units;
- the time remaining to the maturity of the ETNs;
- supply and demand for the ETNs, including to the extent such supply and demand may be affected by inventory positions held by the SPC or any market maker;
- economic, financial, political, regulatory, geographical, agricultural, judicial, military, public health, environmental or other events that affect the value of the Underlying Fund, or that affect markets generally; and
- the actual and perceived creditworthiness of the SPC.

These factors interrelate in complex ways, and the effect of one factor on the market value of your ETNs may offset or (as the case may be) amplify the effect of other factors.

The liquidity of the market for the ETNs may vary materially over time and may be limited

As stated in this Prospectus, the SPC sold the Initial Amount of the ETNs to the Adviser. Additional ETNs may also be offered and sold from time to time by the SPC to Authorised Participants. In addition, the number of ETNs outstanding or held by persons other than affiliates of the SPC could be reduced at any time due to redemptions of the ETNs. The SPC may suspend or cease sales of the ETNs at any time, at its sole and absolute discretion. Accordingly, the liquidity of the market for the ETNs could vary materially over the term of the ETNs. Only the Authorised Participants may request redemption of the ETNs prior to their maturity, and the Redemption is subject to the conditions and procedures described elsewhere in this Prospectus.

Changes that affect the calculation of the NAV will affect the market value of the ETNs and the Settlement Amount

The amount payable on the ETNs and their market value could be affected if trading/redemption in the Units is suspended or cancelled, in which case it may become difficult to determine the market value of the ETNs. If events such as these

occur, or if the value of the Underlying Fund is not available because of a market disruption event or for any other reason, the SPC will make a good faith estimate at its sole and absolute discretion in its calculation of the NAV.

Historical values of the Underlying Fund should not be taken as an indication of future performance during the term of the ETNs

The actual performance of the Underlying Fund over the term of the ETNs, as well as the amount payable at maturity, upon early Redemption or upon the exercise by the SPC of its Early Termination Right, may bear little relation to the historical performance of the Underlying Fund. As a result, it is impossible to predict whether the price of ETNs will rise or fall.

There may not be an active trading market in the ETNs; sales in the secondary market may result in significant losses

The ETNs are listed on AIX. However, the SPC is not required to maintain any listing of the ETNs on AIX or any other stock or quoted exchange. The SPC and its certain affiliates may engage in purchase and resale transactions in the ETNs, although they are not required to do so and may stop at any time. If an active secondary market exists, the SPC expects that ETN holders will purchase and sell the ETNs primarily in this secondary market. Even if an active secondary market for the ETNs exists, it may not provide significant liquidity or trade at prices advantageous to you. As a result, if you sell your ETNs in the secondary market, you may have to do so at a discount from your initial purchase price and you may suffer significant losses.

The SPC may sell additional ETNs, but the SPC is under no obligation to issue or sell additional ETNs at any time. If the SPC sells additional ETNs, the SPC may limit or restrict such sales, and the SPC may stop and subsequently resume selling additional ETNs at any time

In its sole discretion, the SPC may decide to issue and sell additional ETNs from time to time. Trades of the ETNs will be made at market prices prevailing at the time of sale. Additionally, any ETNs held by the SPC or an affiliate in inventory may be resold at prevailing market prices or lent to market participants who may have made short sales of the ETNs. However, the SPC is under no obligation to issue or sell additional ETNs at any time, and if the SPC sell additional ETNs, the SPC may limit or restrict such sales, and the SPC may stop and subsequently resume selling additional ETNs at any time. The SPC may stop selling additional ETNs for any reason. Furthermore, unless the SPC indicates otherwise, if the SPC suspends selling additional ETNs, the SPC reserves the right to resume selling additional ETNs at any time, which might result in the reduction or elimination of any premium in the trading price.

Suspension of additional issuances of ETNs can also result in a significant reduction in the number of outstanding ETNs if ETN Holders subsequently exercise their right to have the ETNs redeemed by the SPC. If the total number of outstanding ETNs has fallen to a level that is close to or below the Redemption Amount, the Authorised Participant may not be able to purchase enough ETNs to meet the minimum size requirement in order to exercise its right of Redemption. The unavailability of this right can result in the ETNs trading in the secondary market at discounted prices below the NAV. Having to sell your ETNs at a discounted sale price below the NAV could lead to significant losses. Prior to making an investment in the ETNs, you, together with your financial adviser, should consider whether the trading price is tracking the NAV.

The NAV and the Settlement Amount are not the same as the closing price or any other trading price of the ETNs in the secondary market

The NAV and Settlement Amount are not the same as the closing price or any other trading price, which is the price at which you may be able to sell your ETNs on AIX. The NAV and Settlement Amount are in the form of Units and/or Cash and calculated as described in this Prospectus.

The trading price of the ETNs at any time is the price at which you may be able to sell your ETNs on AIX. In the absence of an active secondary market for the ETNs on AIX, the last reported trading price may not reflect the actual price at which you may be able to sell your ETNs at a particular time. The trading price of the ETNs at any time may vary significantly from the NAV or Settlement Amount at such time due to, among other things, imbalances of supply and demand, lack of liquidity, transaction costs, credit considerations and bid-offer spreads. Paying a premium purchase price over the indicative value of the ETNs could lead to significant losses in the event you sell your ETNs at a time when such premium is no longer present in the market or the ETNs are called. The SPC may, without providing you notice or obtaining your consent, create and issue ETNs in addition to those offered by this Prospectus having the same terms and conditions as the ETNs. However the SPC may suspend issuance of new ETNs at any time without providing you notice or obtaining your consent. If the SPC limits, restricts or stops sales of such additional ETNs, or if the SPC subsequently resumes sales of such additional ETNs, the trading price and liquidity of the ETNs in the secondary market could be materially and adversely affected, including an increase or decline in the premium purchase price of the ETNs.

Business activities of the SPC or its affiliates may create conflicts of interest or adversely affect the market value of the ETNs

As noted above, the SPC and its affiliates may engage in trading activities related to the Underlying Fund that are not for the account of holders of the ETNs or on their behalf. These trading activities may present a conflict between the holders' interest in the ETNs and the interests the SPC and its affiliates will have in their proprietary accounts, in facilitating transactions, including options and other derivatives transactions, for their customers and in accounts under their

management. These trading activities, if they influence the value of the Underlying Fund, could have a material and adverse impact on the market value of the ETNs.

The ETNs are subject to the credit risk of the SPC

The ETNs are senior unsecured debt obligations of the SPC and are not, either directly or indirectly, an obligation of any third party. Any payment to be made on the ETNs, including any payment at maturity, upon Redemption or upon the exercise by the SPC of its Early Termination Right (as the case may be), depends on ability of the SPC to satisfy its obligations as they become due. As a result, any adverse changes in the market's view of creditworthiness of the SPC will affect the market value, if any, of the ETNs prior to maturity, upon Redemption or upon the exercise by the SPC of its Early Termination Right (as the case may be). In addition, in the event the SPC was to default on its obligations, you may not receive any amounts owed to you under the terms of the ETNs.

The SPC is a newly established entity without limited track record of operation

The SPC has been established on 16 September 2020 and has limited track record of operation. The SPC is a special purpose vehicle with a passive investment strategy and the asset classes in which it can invest are limited. Investments by the ETN holders will be used by the SPC to purchase Permitted Assets only. Accordingly, the prospects of the SPC are fully dependent on the market demand for its ETNs and the performance of the Underlying Fund.

Counterparty risk to the Custodian and other custodians

The assets of the SPC in the form of the Units and Cash are entrusted to the Custodian for safekeeping, as set out in further detail on page 15 of this Prospectus. These assets should be segregated from other securities/assets of the Custodian in accordance with applicable law and regulation, which mitigates but does not exclude the risk of non-restitution in case of bankruptcy of the Custodian. ETN holders are therefore exposed to the risk of the Custodian not being able to fully meet its obligation to reconstitute all the Units and Cash in the case of bankruptcy of the Custodian. The Custodian may not keep all the assets of the SPC itself but may use a network of sub-custodians which are not always part of the same group of companies as the Custodian. ETN holders may be exposed to the risk of bankruptcy of the sub-custodians in circumstances in which the Custodian may have no liability.

Risk related to Astana International Exchange Limited

The ETNs are expected to be listed and traded on AIX. AIX was launched in July 2018, and therefore, has a very short history of operations. Also, the infrastructure for trading on the AIX and the infrastructure for settlement in the AIX CSD and for registration in the AIX Registrar is newly set up. No assurance can be given about acceptable trading volumes of the Notes on the AIX. These factors may negatively impact the liquidity and pricing of the Notes on the AIX.

Risk related to the recommendations of the Adviser

The Adviser is responsible for the recommendations on the investment strategy and Permitted Assets. In certain circumstances the Adviser may recommend to change the Permitted Assets. Although such change in the Permitted Assets will be announced with the sufficient transition period, such decision may significantly influence the market price of ETN, the NAV and the market liquidity.

Expenses to be reimbursed by the Adviser

As at the date of this Prospectus, the Adviser has assumed an obligation to pay all Expenses of the SPC. Such Expenses may be agreed in advance with the Adviser; but some of them may be extraordinary or unpredictable expenses (such as litigation or tax expenses), that may result in an increase of obligation of the Adviser. In case if the Adviser will fail to reimburse such Expenses and/or decide not to reimburse such Expenses to the SPC for any reason, then the SPC may use the Cash it owns and/or sell Units it owns to cover such Expenses. In case if the SPC will use its Cash and/or sell Units it owns, it will decrease the NAV and the market price of the ETNs.

Risk related to the market maker activities

Despite the fact that as at the date of this Prospectus the market maker for ETNs is appointed and provides bid and ask quotes for the ETNs, there can be no assurances that the volume of operations of the market maker or its conditions will satisfy the demand from investors. Taking into account that the ETNs will be traded mainly on AIX, in the absence of an bid and/or ask quotes from the market maker or an insufficient volume of quotes from the market maker, liquidity can drop dramatically, which will also affect the market price of ETNs.

Delisting of ETNs

According to this Prospectus, ETNs are listed on AIX only. The SPC will use all its reasonable efforts to maintain the listing on AIX, but no assurance can be given that the listing on the AIX will be maintained. In case if the listing of the ETNs on AIX will be cancelled or suspended for any reason, you will be able to sell or purchase ETNs only in over-the-counter transactions at prices and conditions that may not be acceptable or favorable for you.

Although in such case the SPC is obliged to declare the Early Termination and to redeem all ETNs outstanding with 60 calendar days notification, during this time, you will not be able to sell/redeem ETNs on organized market.

Redemption of ETNs by the Settlement Amount

ETNs will be redeemed against payment of Settlement Amount by the SPC. Settlement Amount is a combination of Units and Cash owned by the SPC and at Maturity Date, Redemption Date or upon the execution of Early Repayment right by the SPC (as the case may be) you will receive the Units of the Underlying Fund, which might not be suitable investments for you. In some cases, ETN Holders will be required to open account with relevant broker/custodian to be able to receive Units.

ETN Holder (or the SPC in certain circumstances acting on your instructions) will be able to surrender Units for the redemption to the Underlying Fund only on the certain dates (determined solely by the Underlying Fund).

Currency Risk

Currency exchange rates may fluctuate significantly over short periods of time and can be unpredictably affected by political developments or government intervention. Changes in currency exchange rates may affect the value of the investments.

Country risks

Country, regional and political risks are components of market and credit risk. Financial markets and economic conditions generally have been and may in the future be materially affected by such risks. Potential economic or political pressures in Kazakhstan, including those arising from local market disruptions, currency crises, monetary controls or other factors, may have an adverse impact on the SPC operations.

Sanctions could be imposed and have adverse effects on Kazakhstan capital market

While Kazakhstan maintains strong independent diplomatic relationships with both Russia and Ukraine and has confirmed its neutral position with respect to the war between Russia and Ukraine, Kazakhstan has significant economic and political relations with Russia. Therefore, there is also a risk that sanctions could be also imposed on Kazakhstan, which would have an adverse effect on the internal market and Kazakhstan's economy, which could, in turn, have a material adverse effect on SPC's financial condition, cash flows, results of operations and or the price of the ETNs.

RISK FACTORS RELATED TO THE UNDERLYING FUND

Below are the principal risks related to the Underlying Fund. Potential investors are urged to read the full description of risks associated with the Underlying Fund available at <https://www.bcc-invest.kz/> prior to the purchase of any ETNs.

Unitholders of the Underlying Fund bear the risk of losses associated with changes in the market value of the assets owned by the Underlying Fund. The Adviser does not guarantee unit holders an increase or preservation of the value of the Units. The value of Units may increase or decrease, market prices for financial instruments can either increase or decrease, and changes in market prices are beyond the control of the Adviser.

Investment declaration of the Underlying Fund define the following principal risks, associated with the investments in units of the Underlying Fund:

Market risk - the risk of adverse changes in the market value of financial instruments that are part of the assets of the Underlying Fund, or planned to be acquired as part of the assets of the Underlying Fund;

Interest rate risk - the risk of adverse changes in the market value of financial instruments due to adverse changes in market interest rates;

Currency risk - the risk of an adverse change in the value of financial instruments owned by the Underlying Fund due to an adverse change in exchange rates;

Liquidity risk - the inability to buy or sell financial instruments owned (planned to be bought) by the Underlying Fund without significant loss of value;

Credit risk (default risk) - the risk of the issuer of securities owned by the Underlying Fund will fail to meet its obligations, which may lead to decrease in value of securities and the value of the Units accordingly. Underlying Fund which is not a separate legal entity under Kazakhstani legislation also relies on actions and management by its' managing company which is BCC Invest. As a result, the Underlying Fund is largely dependent on satisfactory performance by BCC Invest.

Regulation risk and possible adverse regulatory developments – the Underlying Fund and BCC Invest are subject to binding Kazakhstani legislation. Although a legislation at issue covering private investment funds, joint stock companies, securities exchanges, insolvency, banking, currency control is developed and enacted, the legal framework is still evolving and many sub-laws apply to the Underlying Fund and BCC Invest. Therefore, it could entail to unpredictable legal restrictions or liabilities, including those changing the structure of Underlying Fund's assets. In the latter case, the

managing company BCC Invest must cease any inconsistent with new legislation activity and change the structure of assets accordingly. There is also lack of an established system of precedent or consistency in legal interpretation.

USE OF PROCEEDS

The net proceeds of the issue of the Notes will be used by the Issuer for investments in the Permitted Assets only.

REGISTRATION, PURCHASE AND SALE OF ETNS

Registration of the Notes

The Notes are book-entered non-bearer securities in uncertificated form registered in AIX Registrar. The Notes may be held by the relevant holders in their accounts established either with AIX Registrar or with a participant of AIX CSD. Participants in AIX CSD include trading members of AIX (brokerage firms) and the custodians who have account(s) with AIX CSD.

Only persons that are registered as the owners of the Notes in the accounts with AIX Registrar or with a participant of AIX CSD will be recognised as the ETN holders. The owners of the Notes held in a holding (nominee) account with AIX CSD may choose to exercise all of their rights as noteholders against the Issuer through the respective participant of AIX CSD that has such holding (intermediary) account with AIX CSD (subject to such participant's agreement with the owners of the Notes to act in this capacity).

Over-the-counter Transactions with the Notes held with AIX Registrar

In order to transfer ETNs held in any account with AIX Registrar or receive ETNs into an account at AIX Registrar (either as a result of a sale and purchase transaction or other types of transaction) a person must:

- have an account with AIX Registrar; and
- submit to AIX Registrar an instruction to transfer ETNs into or from its account with AIX Registrar (together with the relevant documents).

Trading of the Notes on AIX and Their Settlement in AIX CSD

The ETNs are expected to be traded on AIX. The settlement of these on-exchange trades of the ETNs will be made in the depository system of AIX CSD in accordance with the business rules and procedures of AIX CSD.

AIX CSD holds securities for trading members of AIX, for other participants of AIX CSD and for their clients. Potential purchasers of the ETNs on AIX need to have an account opened with the participant of AIX CSD (which may be a trading member of AIX or a custodian with an account at AIX CSD). In such cases ETNs will be held on behalf of investors in the relevant AIX CSD participant's account at AIX CSD.

AIX CSD facilitates clearance and settlement of securities transactions conducted on AIX between trading members of AIX. The clearing and settlement process that takes place at AIX CSD provides for exchange of money and securities on a delivery-versus-payment basis through electronic book entry changes in accounts of AIX CSD's participants and their respective clients. Secondary market sales of the ETNs held through AIX CSD will be conducted in accordance with the business rules and the procedures of AIX CSD.

AIX Registrar, as a legal entity which holds and maintains a register of the records of legal owners of the ETNs, interacts with AIX CSD's depository system, and, as part of such interaction, AIX CSD will provide details of the ultimate beneficial owners of the ETNs to AIX Registrar to the extent such details are available in the depository system of AIX CSD.

TAXATION

The following is a general description of certain material tax considerations relating to the Notes under Kazakhstan tax legislation. This summary is based upon the Constitutional Statute of the Republic of Kazakhstan “On the Astana International Financial Centre” No. 438-V ZRK, dated 7 December 2015, the Tax Code of the Republic of Kazakhstan and income tax conventions (treaties) in effect at the date of this Prospectus. Legislative changes or interpretations may, however, be forthcoming that could alter or modify the statements and conclusions set out in this Prospectus. Any such changes or interpretations may be retroactive and could affect the tax consequences of ownership of the Notes by noteholders. This summary does not purport to be a legal opinion or contain a complete analysis of all tax considerations relating to the Notes. For the purpose of this Prospectus the Issuer has not reviewed any tax legislation of any country other than the tax legislation of the Kazakhstan.

Prospective investors in the Notes should consult their tax advisers as to which countries’ tax laws could be relevant to their acquiring, holding and disposing of the Notes and receiving any amounts in connection with the Notes and the consequences of such actions under the tax laws of those countries.

If an ETN holder intends to purchase and/or purchases the Units as provided for in this Prospectus such ETN holder should consult with their tax advisers regarding any tax consequences of such receipt, holding and subsequent sale of the Units under applicable tax legislation. Such ETN holder may also consider reviewing the section entitled “Taxation” of the prospectus issued in connection with the Units (as may be supplemented from time to time) and which is available at <https://www.bcc-invest.kz>.

The information and analysis contained within this Section are limited to taxation issues under tax legislation of Kazakhstan, and prospective investors should not apply any information or analysis set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

In addition, prospective investors should note that an appointment by an investor in the Notes, or any person through which an investor holds Notes, of a custodian, collection agent or similar person in relation to such Notes in any jurisdiction may have tax implications. Prospective investors should consult their own tax advisers in relation to the tax consequences for them of any such appointment.

Republic of Kazakhstan Taxation

The following is a general summary of Kazakhstan tax consequences as at the date of this Prospectus in relation to the sale or transfer of the Notes. It is not exhaustive and purchasers are urged to consult their professional advisers as to the tax consequences to them of holding or transferring Notes.

Capital gains

Individuals and legal entities are exempt from individual and corporate income tax on capital gains mentioned above if the Notes are included as at the date of accrual in the official list of the AIX.

THE DISCUSSION ABOVE IS A GENERAL SUMMARY. IT DOES NOT COVER ALL TAX MATTERS THAT MAY BE OF IMPORTANCE TO A PARTICULAR PURCHASER. EACH PROSPECTIVE INVESTOR IS URGED TO CONSULT ITS OWN TAX ADVISER ABOUT THE TAX CONSEQUENCES TO IT OF AN INVESTMENT IN THE NOTES IN LIGHT OF THE PURCHASER’S OWN CIRCUMSTANCES.

Taxation of the SPC in the Republic of Kazakhstan

The SPC may be subject to a corporate income tax at a 20 percent rate in case the taxable income arises based on the Kazakhstan tax legislation.

Withholding tax in respect of dividends and distributions to be received by the SPC

Dividends, interest and capital gains (if any) which the SPC receives with respect to Units owned by the SPC may be subject to taxes, including withholding taxes, in other countries. It is anticipated that the SPC may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Kazakhstan and such countries.

If this position changes in the future and the application of a lower rate results in a repayment to the SPC, the NAV will not be re-stated and the benefit will be allocated to the existing ETN holders rateably at the time of the repayment.

ENFORCEABILITY OF CIVIL LIABILITIES AND CERTAIN LEGAL MATTERS

Enforceability of Civil Liabilities

The Issuer is a special purpose company registered under the AIFC law and governed by the AIFC Special Purpose Company Rules (AIFC Rules No. GR0001 of 2017) and certain of its officers and directors and certain other persons referred to in this Prospectus are residents of Kazakhstan. Some of the assets of the Issuer are located in Kazakhstan. As a result, subject to the following paragraph, it may not be possible: (i) to effect service of process upon the Issuer or any such person outside Kazakhstan; (ii) to enforce against any of them, in courts of jurisdictions other than Kazakhstan, judgments obtained in such courts that are predicated upon the laws of such other jurisdictions; or (iii) to enforce against any of them, in Kazakhstan courts, judgments obtained in jurisdictions other than Kazakhstan.

Kazakhstan's courts will not enforce any judgment obtained in a court established in a country other than Kazakhstan unless (i) there is in effect a treaty between such country and Kazakhstan providing for reciprocal enforcement of judgments and then only in accordance with the terms of such treaty or (ii) there is an actual reciprocity (i.e., the particular judge is satisfied that there is an evidence that judgments obtained in Kazakhstan are enforceable (or were actually enforced) in such other country). For example, there is no such treaty in effect between Kazakhstan and the United Kingdom or the United States; and existence of an actual reciprocity in the United Kingdom or the United States could be difficult or even impossible to prove. However, Kazakhstan is a party to the New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards 1958 (the "Convention") and, accordingly, an arbitral award rendered in a country which is also a party to the Convention should be recognised and enforceable in Kazakhstan provided the conditions to recognition and enforcement set out in the Convention and the laws of Kazakhstan are met.

GOVERNING LAW

The Notes (including the agreement between the SPC and the ETN holders relating to arbitration provided for in the paragraph headed “Arbitration” below), and any non-contractual obligations arising out of or in connection with the Notes, are governed by, and shall be construed in accordance with, the Acting Law of the AIFC.

ARBITRATION

Any claim, dispute, controversy or difference of whatever nature arising under, out of or in connection with the Notes (including a claim, dispute, controversy or difference regarding validity, interpretation, performance, breach or termination of any Notes or any non-contractual obligations arising out of or in connection with the Notes) (a “**Dispute**”), shall be referred to and finally settled by arbitration administered by the International Arbitration Centre of the Astana International Financial Centre (“**IAC**”) in accordance with the IAC Arbitration and Mediation Rules (the “**Rules**”) in force on the date on which the Request for Arbitration is filed with the Registrar of the IAC. The Rules shall be deemed to be incorporated by reference into this Prospectus.

The seat of arbitration shall be Astana, the Republic of Kazakhstan and the language of arbitration shall be English.

In this paragraph:

“**Joinder Order**” means an order by a Tribunal that a Primary Dispute and a Linked Dispute be resolved in the same arbitral proceedings, including a decision of the Tribunal to consolidate a newly commenced arbitration with a pending arbitration.

“**Linked Dispute**” means any Dispute and/or any dispute, claim, difference or controversy arising out of, relating to or having any connection with the Notes, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Notes, in which a Request for Arbitration (as defined in the Rules) is served after a Request for Arbitration (as defined in the Rules) has been served in respect of a Primary Dispute.

“**Primary Dispute**” means any Dispute and/or any dispute, claim, difference or controversy arising out of, relating to or having any connection with the Notes, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Notes, in which a Request for Arbitration (as defined in the Rules) has been served before a Request for Arbitration (as defined in the Rules) has been served in relation to any Linked Dispute.

“**Tribunal**” means any arbitral tribunal appointed under this paragraph.

(i) Any party to both a Primary Dispute and a Linked Dispute may apply to the Tribunal appointed in relation to the Primary Dispute for a Joinder Order in relation to any Linked Dispute.

(ii) The applicant for a Joinder Order must promptly notify all parties to the Primary Dispute and the Linked Dispute of any application under point (i) above.

(iii) The Tribunal appointed in relation to the Primary Dispute may, if it considers it just, make a Joinder Order on hearing an application brought under point (i) above. In determining whether to make a Joinder Order, the Tribunal must take account of:

- (A) the likelihood and consequences of inconsistent decisions if joinder or consolidation is not ordered;
- (B) any failure on the part of the party seeking joinder or consolidation to make a timely application; and
- (C) the likely consequences of joinder or consolidation in terms of cost and time.

(iv) If the Tribunal makes a Joinder Order:

- (A) it will immediately, to the exclusion of any other Tribunal, have jurisdiction to resolve finally the Linked Dispute in addition to its jurisdiction in relation to the Primary Dispute;

(B) it must order that notice of the Joinder Order and its effect be given immediately to any arbitrator(s) already appointed in relation to the Linked Dispute and to all parties to the Linked Dispute and to all parties to the Primary Dispute; and

(C) any appointment of an arbitrator in relation to the Linked Dispute before the date of the Joinder Order will terminate immediately and that arbitrator will be deemed to be functus officio with effect from the date of the Joinder Order. Such termination is without prejudice to:

- (1) the validity of any act done, or order made by that arbitrator or by the court in support of that arbitration before his appointment is terminated;
- (2) his entitlement to be paid his proper fees and disbursements; and
- (3) the date when any claim or defence was raised for the purpose of applying any limitation bar or any similar rule or provision.

(D) it may also give any other directions it considers appropriate to:

- (1) give effect to the Joinder Order and make provisions for any costs which may result from it (including costs in any arbitration terminated as a result of the Joinder Order); and
- (2) ensure the proper organisation of the arbitration proceedings and the proper formulation and resolution of the issues between the parties.

(v) If a Tribunal appointed in respect of a Primary Dispute hereunder makes a Joinder Order which confers on that Tribunal jurisdiction to resolve a Linked Dispute arising hereunder, that Joinder Order and the award of that Tribunal will bind the parties to the Primary Dispute and the Linked Dispute being heard by that Tribunal.

(vi) For the avoidance of doubt, where a Tribunal is appointed under this paragraph, the whole of its award (including any part relating to a Linked Dispute) is deemed for the purposes of the New York Convention on the Recognition and Enforcement of Arbitral Awards 1958 to be contemplated by this paragraph.

(vii) Each of the Issuer and the ETN holders waives any objection, on the basis of a Joinder Order, to the validity and/or enforcement of any arbitral award made by a Tribunal following any Joinder Order.

RIGHTS OF THIRD PARTIES

No third party (i.e., a party other than the SPC and the ETN holder) shall have any right to enforce any term or condition of this Prospectus in relation to the Notes, including any rights under Part 10 (Rights of Third Parties) of the AIFC Contract Regulations (the AIFC Regulations No. 3 of 2017).

BINDING NATURE OF THE PROSPECTUS

ETN holders hereby agree, by acquiring any ETNs, whether directly, through a brokerage company or otherwise whatsoever, to be bound by the terms and conditions of this Prospectus and this Prospectus constitutes a binding contract between the SPC and each ETN holder.

These forward-looking statements and other statements contained in this Prospectus regarding the matters that are not historical facts involve predictions. RESPONSIBILITY STATEMENT

Subject to the following paragraph, the Issuer, having made all the reasonable enquiries, accepts responsibility for this Prospectus (in accordance with Section 69 of the AIFC Framework Regulations №18 of 2018 and Part 1 of the AIFC Market Rules №FR0003 of 2017) and confirms that this Prospectus complies with the requirements set out in Section 69 of the AIFC Framework Regulations №18 of 2018 and Part 1 of the AIFC Market Rules №FR0003 of 2017 and contains all information which is material in the context of the issue of the Notes, that the information contained in this Prospectus is correct to the best of its knowledge and that no material facts or circumstances have been omitted. The Issuer confirms that such information has been accurately reproduced and is able to ascertain from the information published on the above-mentioned sources that no facts have been omitted which would render the reproduced information inaccurate or misleading. The source of information is identified where used. The Issuer accepts responsibility for correctly extracting such information from the sources and confirms that such information has been correctly extracted from those sources.

Neither the delivery of this Prospectus nor the offering, sale or delivery of any ETNs shall in any circumstances create any implications that there has been no adverse change, or any event reasonably likely to involve an adverse change, in the condition (financial or otherwise) of the Issuer since the date of this Prospectus.
