- CDT 1.4 The nature of our business also means we must ensure that we are focused on maintaining our reputation for acting openly and honestly in all our business dealings and treating all our stakeholders including our customers, shareholders, **Directors**, officers, and staff as valued partners in our business. We also have a responsibility to our wider stakeholder group including regulators, policy makers, **Market Participants**, corporations, **AIFC**, the public, the Republic of Kazakhstan, and the international community.

CDT 2 Objectives

- CDT 2.1 The objective of the **Code of Conduct** is to set out the behavioural framework which governs the activities of **AIX**. It forms the basis of all **Directors'**, officers', and staff's

interactions internally and externally. The purpose and objective of the *Code of Conduct* is to:

- (1) communicate to all staff the framework and corporate values within which we expect our business to be conducted;

- (6) set out our support for the communities in which we operate.

CDT 2.2 The *Code of Conduct* is not intended to be comprehensive description of all factors that impact the quality of your professional and personal behaviour, but it forms the framework under which we all operate. The *Code of Conduct* also sets out where further information and guidance is available.

CDT 2.3 All *Directors*, officers and staff of *AIX* are expected to be familiar with the *Code of Conduct* and adhere to the principles and values set out within the policy.

CDT 2.4 If *Employees* are uncertain as to the application of the *Code of Conduct*, then they shall escalate the matter to the Head of Human Resources or the *Compliance Officer*.

CDT 3 Scope & Application

CDT 3.1 This *Code of Conduct* applies to *AIX* and all *AIX* entities. A reference to *AIX* includes any and all members of *AIX* group, unless the contrary intention appears. All *Directors*, officers, and staff, including temporary, contracted or secondees, must comply with this *Code of Conduct*.

CDT 3.2 Equivalent standards and/or codes of conduct are expected from business partners and suppliers.

- CDT 4.3.1 Our staff are our most valuable asset and are fundamental to the success of our business. We want staff to feel proud of working for *AIX* and we are committed to providing a safe, fulfilling and stimulating work environment which allows staff to deliver to their full potential, developing and enhancing skills and knowledge for the benefit of the business, our customers and themselves.
- CDT 4.3.2 Attracting and retaining high calibre staff is critical to our success and our remuneration and incentive systems are designed to provide a clear link between performance and reward. Maintaining a working environment that provides training and development opportunities for personal development also forms an important part of our commitment to our staff.

CDT 4.4 Business Partners & Suppliers

- CDT 4.4.1 We are committed to establishing mutually beneficial relations with our suppliers and business partners and we honour and enforce the terms of the contracts to which we commit. We conduct our operations with integrity and in accordance with the principles of fair competition and will not tolerate the offer or acceptance of any gift, hospitality or other inducement designed to influence unduly a decision. The giving and receiving of legitimate gifts or hospitality must be transparent and reported in line with *AIX Anti-Bribery and Corruption Policy*. We strive only to do business with organisations who uphold similar business principles. These principles apply to partners and suppliers wherever they are located in the world.

CDT 4.5 Regulators

- CDT 4.5.1 We are committed to operating within a fair and independent regulatory framework which complies fully with the provisions laid down by the regulatory bodies, including *AFSA*, and the legal frameworks in the countries in which we operate. We cooperate openly and proactively with our regulators.

- CDT 4.6.1 We are a “good neighbour” to our community and are sensitive to the cultural and social principles of the communities in which we conduct business. We partner with our community in much of what we do, and we contribute directly and indirectly to the community’s general well-being. Our activity and role in the economy means that our commitment extends beyond standard corporate community activities. We recognise the role we play in terms of capital allocation and job creation in local communities. We operate with integrity in respect of our community relations at all times.

CDT 4.7 Environment

- CDT 4.7.1 We recognise a duty of care to preserve nature and minimise harmful impacts on the environment. We embrace sustainable development practices in our everyday activities and take measures to reduce energy consumption and recycle where possible.

CDT 5 Guiding Principles

- CDT 5.1 Maintaining our reputation requires everyone within **AIX** to maintain the highest standards and comply with all requirements set out by **AIX**’s regulators, the **AFSA** and **AIFC**. This section sets out the behaviour that is expected of everyone within **AIX**.

CDT 5.2 Professional Behaviour

- CDT 5.2.1 We expect all our **Directors**, officers, and staff to behave professionally and comply with applicable regulations and legislation within which we operate. This includes our **Directors**, officers, and staff respecting relevant laws and regulations and complying with both the letter and the spirit of the laws and regulations of the countries in which we operate. We will ensure that all **Employees** are properly trained to fully understand the *Code of Conduct*.
- CDT 5.2.2 Over and above this, all our **Directors**, officers, and staff are required to behave in a manner that is fair and just, rather than just complying with minimum legal standards. We expect our **Directors**, officers, and staff to avoid any behaviour, even in appearance that negatively impacts the reputation of **AIX** or the entities within the **AIFC**. We expect all **Employees** to be courteous, considerate, and professional in all their work or work-related activities. We also expect these standards of behaviour to apply to the personal lives of all **Directors**, officers, and staff in so much as reputationally this could impact on **AIX**.

CDT 5.3 Conflicts of Interest

- CDT 5.3.1 Both as a company and as individual **Directors**, officers, or **Employees**, we avoid or declare conflicts of interest that may lead (or be seen to lead) to divided loyalties, either now or in hindsight. Conflicts of interest may arise when a **Director**, officer, or **Employee** has:
- (1) outside business activities or **Directorships** which detract from the individual’s ability to devote appropriate time and attention to **AIX** or conflict with their role or the objectives of **AIX**;
 - (2) significant ownership of or interest in a supplier or customer; or
 - (3) consulting relationship with third parties.

CDT 5.3.2 For the purposes of identifying the types of conflict of interest, **AIX** shall take into account, as a minimum, whether **AIX** or a person directly or indirectly linked by control to **AIX**:

- (1) is likely to make a financial gain, or avoid a financial loss, at the expense of the client; or
- (2) has an interest in the outcome of a service provided to the client or of a transaction carried out on behalf of the client, which is distinct from the client's interest in that outcome; or
- (3) has a financial or other incentive to favour the interest of another client or group of clients over the interests of the client; or carries on the same business as the client; or
- (4) receives or will receive from a person other than the client an inducement in relation to a service provided to the client, in the form of monies, goods or services, other than the standard commission or fee for that service.

CDT 5.3.3 **AIX Employees** may not engage in any outside business activity unless it has been approved in advance by the **Compliance Officer**. Outside business activities include employment by a third party; engagement as an independent contractor with a third party; serving as an advisor or mentor to a for-profit business; developing or operating one's own business (whether as a sole proprietor, part of a partnership, LLC or corporation); or, owning over 5 (five) per cent of a business (regardless of whether one is actively involved in its operations or management). Outside business activities do not include volunteer work for non-profits or participation in professional associations. Where there is a doubt about whether an activity constitutes an outside business activity, **Employees** are expected to seek guidance from the **Compliance Officer**.

CDT 5.3.4 Where approval is granted by the **Compliance Officer**, it must be re-evaluated where there is a significant change in the nature or scope of the outside business activity and/or the **Employee's** responsibilities at **AIX**. If arrangements made by **AIX** to manage conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to the interests of a client will be prevented, **AIX** must clearly disclose the general nature and/or sources of conflicts of interest to the client before undertaking business for the client.

CDT 5.3.5 **Compliance Officer** maintains a conflict register.

CDT 5.4 Insider Dealing

CDT 5.4.1 By nature of our work, **Directors**, officers, or staff may have access to **Price Sensitive Information**. If any **Directors**, officers, or staff trade on the basis of such information or enable others to trade on the basis of such information, this would be considered a breach of employment agreement and result in disciplinary action and referral to **AFSA**.

CDT 5.4.2 We require that our **Directors**, officers, and staff never enter into any transaction in the **Securities** of **AIX** or any company listed or quoted on our markets/ or any other quoted or listed company while they are in possession of non-public price sensitive information about that company. It is strictly forbidden to pass on market sensitive information to third parties in any form unless such disclosure has entered the public domain or is required by law or for appropriate regulatory oversights.

CDT 5.4.3 In order to prevent insider dealing, **Directors**, officers, and staff may undertake personal account transactions only in compliance with **AIX** Personal Trading Procedure.

We behave with integrity and never take unfair advantage through manipulation, misrepresentation, concealment, harassment, abuse of confidential information or any other unfair dealing or practice.

CDT 5.5.2 When selecting suppliers or contractors, or partnering with external stakeholders, we base our decisions on an objective business rationale and not personal interests or bias. We strive to apply fair and open procurement rules as further set out in *AIX* Procurement Policy.

CDT 5.6 Competition

CDT 5.6.1 We believe in vigorous and fair competition. By innovating and continually building in-depth knowledge of our products and services, our business partners and our customers will also benefit. We aim not only to understand their needs but also to exceed their expectations.

CDT 5.6.2 In competing for business, we do so fairly, ethically and in a way that fully complies with all applicable laws and regulations. Our **Directors**, officers, and staff not offer or accept gifts or bribes or undertake inappropriate activities to facilitate business in adherence to *AIX* Anti-Bribery and Corruption Policy.

We seek to attract, retain, and motivate people from many backgrounds and perspectives. We will at all times follow a non-discrimination policy and seek broad gender balance wherever possible. We recognise the importance of gender equality in the workplace, and will ensure that our people enjoy equal rights, responsibilities, and opportunities.

CDT 5.7.3 We will never tolerate bias, discrimination, intimidation or harassment of our **Directors**, officers and staff. If an **Employee** believes he/she has been subjected to unacceptable workplace conduct, such **Employee** should immediately contact its line manager or the Head of Human Resources in accordance with *AIX* Disciplinary Actions and Grievance Policy.

CDT 5.8 Confidentiality

CDT 5.8.1 Receiving confidential information is a routine part of our work. We never disclose confidential information (except where required by law or regulation, or when such information has already entered the public domain) or use such information improperly. Information received must never be misused for personal or third-party benefits.

CDT 5.8.2 We maintain *AIX* Information Policy with which all **Directors**, officers, and staff are required to confirm compliance on a regular basis.

CDT 5.9 Political Activities

CDT 5.9.1 We take our public policy responsibilities seriously and engage with government, regulators, policy makers and political parties in a neutral manner in order to make our position known on any matters that affect us, our **Directors**, our staff, our customers, our shareholders and the markets in which we operate. We do not make payments or provide other direct or indirect support to political parties and organisations or their representatives.
